Search Pressed

Spurred on by the State Department, New York City police have intensified their search for Valsa Matthai, 23-year-old Columbia university co-ed daughter of a Bombay, India, industrialist. Highlighting the search was the moving of 165 tons of coal in the basement of International House, where she was last seen before dawn on March 20. (International)

Washington Roundup

(International News Service)
The American Army is at its planned strength of seven million 700 thousand men today but Washington is informing local draft boards that inductions cannot be reduced materially before July at the earliest. Currently eyeing 574 thousand draft-eligible young men deferred in industry and thousands more in agriculture, the boards are being told to induct from 75,000 to 100,000 men a month to balance combat losses and normal attrition. The Navy now totals three million 500 thousand and will be increased to three million 500 thousand by July 1.

Now appears deferments will be granted to enough young coal miners to maintain the country's war vital fuel supply, but indications are a bitter Senate fight will be made against any bill to place 4-F's in labor battalions. Sen. Danaher (R) Conn., declares he will oppose any measure to put 4-F's "on the garbage detail" while Sen. Willis (R) Ind., says the "people are not in the mood for much more automatic power".

A personal report on the great fighting force comes from Col. William J. Whaling who led the assault resulting in the capture of Cape Gloucester airfield on New Britain Island. Whaling tells how his Marines killed nearly 3,000 Japs in five days fighting but adamantly refuses to discuss reports he is credited with killing 300 of them single-handed.

On the political front, congressional Republicans generally predict Wendell Willkie will remain in the GOP organization despite reports he might launch a third party and former President Herbert Hoover is reported to have told friends he now favors Gov. Dewey for the Republican presidential nomination.

The war food administration says civilians in the last three months ate meat at a higher rate than in any year since 1906 but will eat less in April, May and June.

Germans Battle Frantically To Escape Odessa

Escape Corridor Is Narrowing Despite Nazi Defense Efforts

NAZI POSITION IS REPORTED DESPERATE

By NATALIA RENE (U.S. Staff Correspondent)

MOSCOW, April 7.—Badly mauled Nazi forces battled frantically today to keep open their narrowing escape corridor from imperiled Odessa, but converging Soviet columns advanced steadily to within 13½ miles northeast and 20 miles northwest of the key Black Sea naval port.

(Frontline dispatches indicated that advanced elements of the Russian army already were "less than 10 miles from Odessa." Reuters said in London, while the British radio declared that one German broadcast described the Nazi position within the city as "desperate.")

Only Rail Escape

"The garrison's only rail escape route is incapable of handling more than a fraction of the heavy material," admitted the enemy transmission. "Escape roads have been rendered practically impassable by heavy rains and snowstorms." Simultaneously, other Russian legions poured a devastating hail of shells into remnants of 15 German divisions trapped in the southwestern Ukraine, having ripped open the pocketed Nazis' core of the resistance by capturing the town of Skala.

Thirty-five miles inside pre-war Poland, additional Red army units smashed desperate large-scale enemy armored and infantry attacks seeking vainly to break through a Soviet ring surrounding the Hitler garrison within the embattled Tarnopol railroad junction.

Bombing Raid On Yugoslavia

NAPLES, April 7.—(INS)—Sixteen Nazi interceptors out of a force of 120 craft which attempted to beat off an American bombing raid on the Zagreb airfield in Yugoslavia yesterday were listed today as the latest victims of U. S. aerial gunners.

The American raid, carried out on a comparatively small scale by giant Fortresses and Liberators, struck at the heart of the enemy-held drone but results could not be observed, an official statement revealed.

Simultaneously, fleets of medium Mitchells blasted the Perugia air strip and Marauders pounded two strategic rail bridges near Orvieto. In all operations, 28 enemy planes were destroyed at a cost of six Allied bombers and four fighters. The enemy put 25 planes over the battle area yesterday, during which time the Mediterranean air force flew some 1,200 sorties.

Rumania Certain To Be Huge Battlefield

By MAJOR PAUL C. RABORG (Written Especially for I. N. S.)

NEW YORK, April 7.—Recent International News Service dispatches have stated that it is believed Rumania will in the near future enter into armistice arrangements with Soviet Russia. Perhaps that is the reason why for several days there was no news as to the battles within old Rumania, which are now supposedly being waged between the onrushing Soviet units and Hitler's beaten Nazi divisions.

If and when Rumania makes a deal with Moscow, all of Rumania will become a battlefield just as Italy did. However, it would seem whether or not armistice arrangements are entered into, the country of ex-King Carol will be scarred by terrific combat anyway. If Rumania does enter into peace arrangements with Moscow, there will not be so many serious repercussions left to follow the termination of the coming armed struggle. If (Continued On Page Two)

Enemy Shows Some Activity In Marshalls And Carolines Says Report

By CLINTON GREEN (U.S. Staff Correspondent)

PEARL HARBOR, April 7.—Day and night pounding of Jap bases in the Marshalls and Carolines by army, navy and marine aircraft was enlivened Tuesday by a stepping up of enemy fighter resistance at Truk and activity of Jap shore batteries in the Marshalls, it was announced today.

The enemy's increased activity in the air and on the ground, however, was not serious, according to the latest press release issued by Admiral Chester W. Nimitz, commander in chief of the Pacific fleet. While marine dauntless dive bombers and Corsair fighters, together with navy Ventura search planes of Fleet Air Wing Two and twin-motored Mitchells of the Army's Seventh Air Force were bombing and strafing four Jap-held atolls in the Marshalls one Corsair was shot down near Wotje.

Destroyer Hit

A United States destroyer moved in at once to rescue the pilot and was fired upon by Jap shore batteries. Two hits were scored on the destroyer, causing minor damage, but the gallant "tin can" returned the fire and rescued the marine aviator under the Japs' noses.

The destroyer's exploit was revealed coincidentally with the first mention for some time of Jap shore batteries in action on a Marshalls atoll.

Liberators of the Seventh Air Force hit Moen and Dublon Islands in the Truk atoll during the night of April 3-4. Intercepted by six enemy night fighters—more than have been used recently by the Japs—the Liberators continued on to their targets.

Direct hits were scored on oil storage tanks on Dublon Island, causing several fires between the sea-plane base and the Dublon township. Smaller fires were ignited on Moen Island.

Lawrence County In 25th District

Not that we're asking the \$64 question, but do you know what congressional district you are in, in Lawrence county? If you think it is the 26th, you're wrong. Lawrence county is now in the 25th congressional district.

Years ago when Washington county and Lawrence county were in the same congressional district, this was the 24th congressional district. When Lawrence, Beaver and Butler were made into a congressional district, the number was changed to the 26th.

The reapportionment bill passed in 1943 again changed the number of the district but not the territory. Lawrence, Beaver and Butler still comprise the congressional district, but the number is 25.

Allied Air War Against Europe Shows No Letup

Daylight Attacks Follow Up Night Raids On Nazi-Held Europe

PHOTOGRAPHS SHOW HUGE DAMAGE DONE

By CHARLES A. SMITH (U.S. Staff Correspondent)

LONDON, April 7.—Indications that the Allied air war against continental Europe was continuing by daylight today on the heels of night stabs at the Reich by RAF Mosquito bombers came this morning from enemy radio outlets.

At 11 a. m. the controlled Luxembourg radio reported that "single enemy planes" were over northern Germany. The broadcast came only a short time after the air ministry announced that the 400-mile-an-hour Mosquitos bombed groggy Hamburg and objectives in northern Ruhr and Rhineland areas last night. One plane was listed as missing from these assaults.

At 11 o'clock last night the Frankfurt radio asserted that Allied formations were nearing the city and exactly one minute later left the air in the middle of a broadcast.

Plan Collection Of Waste Paper

Saturday, April 22, Is Designated For Second Collection Here

Saturday, April 22, has been set as the day for the second waste paper collection in New Castle and the adjoining townships. At a meeting of the general committee on Waste Paper Salvage with collection chairman Joseph Hartman in The Castleton hotel Thursday, the details of the collection were worked out.

Instead of sending waste paper to collection depots, this time householders are asked to have their bundles of paper on the curb by noon on April 22. In case of rain they are asked to put it on the porch or in some place where the rain will not hit it.

Scouts To Collect

Boy and Girl Scouts will act as the collection agents and trucks furnished by the Lawrence County Chapter, Pennsylvania Motor Truck Association hauling the paper from the homes to the cars. Householders are asked to make their bundles of paper no more than 15 pounds in weight as this is the maximum which the committee wishes the youngsters to carry.

Newspapers should be bundled alone and not mixed with magazines. Magazines should be bundled alone. Cardboard boxes and containers should be flattened. All bundles should be tied with heavy twine and not with ordinary string.

J. A. Brown, of the Industrial Salvage committee of the War Production board was present at the meeting Thursday and told of the critical need of waste paper. He urged the committee to make the collection as full as possible. Roger Jewett, executive vice president of the Great New Castle association was present also and spoke.

Further details of the waste paper drive will be announced later.

GEN. MACARTHUR'S HEADQUARTERS, New Guinea, April 7.—(INS)—Dutch airmen, continuing their bombing campaign against Japanese-held Penfui in Netherlands Timor, were credited today with blasting that base for the fourth time in six days. The latest assault, carried out Wednesday, kindled blazes visible 25 miles and encountered only light anti-aircraft fire, headquarters spokesmen announced.

Major Battle In India Is Likely

Japanese Fighters Are Reported Within 49 Miles Of Allied Supply Line

By JAMES E. BROWN (U.S. Staff Correspondent)

NEW DELHI, April 7.—Veteran Japanese hill fighters were reported today within 49 miles of the main Allied supply line into northern Burma, striking rapidly with one prong of their multi-forked invasion army which observers predicted soon will be tested in a full-scale battle before reinforced Imphal.

The Nipponese thrust represented a gain of 81 miles from their last reported position. Two days ago they were reported to be 80 miles from the Dimapur railroad, apparently their immediate objective.

The enemy column, driving in the Kohima area some 60 miles above Imphal, posed an increased threat to the Allied-held Assam-Bengal railroad just at a time when Imphal itself had been reinforced by the arrival of the 17th Indian Division. The division cut its way through a series of road blocks to reach the city and strengthen the forces preparing for its defense.

Six Waive Right To Stay Home For Easter Holiday

Men Called For Induction Into Navy Leave To Begin Duties This Morning

Six men, who had been summoned for induction into the U. S. navy this morning, out of a large group of men called for this date, waived the offer made by the Selective Service system to stay home because of the Easter holidays, and departed on an early train this morning for Pittsburgh to be sworn into service and begin their duties. They left via the Pennsylvania R. R.

Representatives of the Service Men's Aid Association of the USO were on hand to bid them farewell and give them their accustomed kits.

The rest of the men will leave the first of the week, it was stated by Mrs. Margaret Hogan, chief clerk of Local Board Two, from whose jurisdiction the men were called up. Although the order granting the men a stay was not received until late Wednesday, most of the men soon acquainted themselves of the offer and most of them took advantage of it.

Knockout Blow Given Jap Base In New Guinea By Air Assault

By GEORGE LAIT (U.S. Staff Correspondent)

GEN. MACARTHUR'S HEADQUARTERS, New Guinea, April 7.—Hollandia, the bomb-gutted Japanese air base in northern New Guinea, lay in smoldering ruins today in the wake of a knockout blow by more than 250 American planes, against which the enemy was powerless to send even one interceptor into the sky.

Within the brief span of 42 minutes, fighter-escorted heavy and medium bombardment units rocked Hollandia Wednesday with 320 tons of explosives and incendiaries, causing still further havoc to the already smoldering bastion. Gen. Douglas MacArthur revealed in a communique which also announced a new attack on Truk.

Artillery Pounds At German Lines

Main Enemy Position Within Ruined Cassino Is Heavily Battered

By JAMES L. KILGALLAN (U.S. Staff Correspondent)

NAPLES, April 7.—Allied artillery and mortar batteries resumed their hammering of Nazi positions all along the Italian front today, plastering the main enemy position within ruined Cassino and hitting at enemy strongholds over a wide area.

Gen. Sir Henry Maitland Wilson, supreme Allied commander, announced simultaneously that naval patrols captured three enemy schooners, complete with cargoes and crews, during recent night operations off the Dalmatian coast.

Bag 136 Planes In Month

In his statement, General Wilson also revealed that Fifth Army anti-aircraft batteries bagged 136 enemy planes during March, to boost their total score since the landings at Salerno to 647 Nazi aircraft. The March figure included 80 planes definitely destroyed, plus 56 others listed as probables. During the entire period since Salerno, 394 German craft have fallen to the Fifth Army's anti-aircraft guns. (Continued On Page Two)

Governor Dewey Remains Silent

New York Chief Executive Is 'Political Sphinx' In Present Situation

ALBANY, N. Y., April 7.—(INS)—Gov. Thomas E. Dewey of New York was described by his supporters today as the "political sphinx" who involuntarily has rallied to his side more spontaneous strength than any other Republican presidential hopeful in many decades.

While the nation generally kept looking toward Albany for some sort of word from the governor, indicating that he was alert to the significance of the overwhelming victory he scored in the Wisconsin primary and the rapid expansion of his power in other states, Dewey maintained strict silence and went about signing or vetoing scores of legislative bills.

"There will be no comment on any political questions," Dewey said, in his first political conference since the Wisconsin primary in which he won 18 of the 24 delegates.

One of Dewey's aides, however, criticized Wendell Willkie who withdrew from the presidential race after his Wisconsin defeat in which he won not a single delegate, for Willkie's charge that Dewey's chief supporter in Wisconsin, Secretary of State F. R. Zimmerman, was connected with the America First group. "A punch below the belt," the Dewey lieutenant called it.

Victory Guns Of Moscow Are Now Prepared

Capture Of Odessa Will Mark Notable Triumph For Soviet Russia

WILL BE WORST DEFEAT OF NAZIS

By J. C. OESTREICHER (U.S. Staff Editor)

The victory guns of Moscow were swabbed and loaded for an unprecedented salvo of triumph today when early liberation of Odessa became inevitable and the German army faced its worst moral and material defeat of the war.

Soviet troops pounding into the outskirts of the Black Sea port placed their artillery garrisons and a German radio admission that the situation was "desperate" clearly indicated that attempts at a mass Nazi evacuation had met with severe reverses.

The Third Ukrainian Army of Gen. Rodion Y. Malinovsky converged upon Odessa from three directions. Left open to the Germans in any attempt to reach the temporary security of Galati in Rumania was only the coastal railway line, which is broken by a six-mile long ferry route across the Dniester river estuary.

Major Milestone

Russian liberation of Odessa will constitute a major milestone in the Russo-German war. Not only is the city of great strategic importance controlling the Black Sea and the Crimean peninsula. It is the birthplace of the Bolshevik revolution. And it is, incidentally, Gen. Malinovsky's home town.

Just as the uprising which ousted Kaiser Wilhelm and disposed of Imperial Germany began at the seaport of Hamburg, the Soviet revolution had its chief initial impetus at Odessa.

Battlefront dispatches indicated that Malinovsky's forces moving in from Odessa were heavily supported by tank and other mechanized units. It appeared unlikely the Germans would be able to make a major stand in the city, but the Soviet high command obviously was taking no chances.

Refugees Reach Philadelphia On Portuguese Ship

PHILADELPHIA, April 7.—(INS)—The neutral Portuguese ship Serpa Pinto docked at the port of Philadelphia today, bearing 385 European refugees who fled Nazi terrorism with the help of the underground.

Representatives of welfare agencies greeted the passengers, 276 of whom were taken immediately to sealed trains bound for Montreal and Toronto. Approximately 100 of the refugees will remain in the United States and several others will eventually go to Latin-American points.

About 65 per cent of the refugees en route to Canada are Jews from Russia, Poland, Austria, Belgium, Yugoslavia and Lithuania.

The refugees were brought to this country through the efforts of the United Jewish refugee and war relief agency and the Canadian national committee on refugees.

Condition Of President Is Much Improved

WASHINGTON, April 7.—(INS)—President Roosevelt was in good voice and good humor at his news conference today and appeared to be recovering from the effects of a three months' almost continuous struggle, against colds and bronchitis.

His face appeared thinner and he was pale from being constantly indoors. He appeared much more improved than on March 28, the date of his last previous news conference. He smoked during the greater part of his meeting with the press and radio commentators and the long ivory cigarette holder, which has appeared in so many drawings and photographs, was again thrust jauntily into the left side of his mouth.

Mr. Roosevelt scheduled no callers beyond the press conference but presided at a cabinet meeting during the afternoon.

RUMANIA CERTAIN TO BE HUGE BATTLEFIELD

(Continued From Page One)

Rumania does not, there will be terrific punishment in store for those who decided to fight against the red Ukrainian army.

Regardless of Rumania's immediate future political actions, the present Soviet invasion will necessitate that Hitler strongly reinforce all of Rumania with German troops.

Where Will He Get Troops?

The natural question is—where will he get those troops? It would seem that the German general staff would not withdraw any of the Nazi divisions now in Greece, Yugoslavia or Italy. The German armies fighting Stalin's red legions in the east have their hands more than full.

From the outside it appears that Hitler's only source of German reinforcements for southeastern Europe must be the central reserve pool of divisions that he now undoubtedly has in Germany. But if he withdraws units from that central pool, he will take away troops that are desperately needed on Germany's eastern fighting front and that will soon be needed on her western front.

The immediate future status of internal Italy, Yugoslavia, Albania, Greece, Bulgaria and Rumania is a question that must be considered. They all want desperately to get out of the war. However, Hitler and his general staff are going to struggle desperately to hold them in the war and to the Axis line.

It all adds up to an internal explosion in southeastern Europe which, at least for a short time, will rival in severity nature's eruption of Vesuvius.

GERMANS BATTLE FRANTICALLY TO ESCAPE ODESSA

(Continued From Page One)

Sea port by Gen. Ridio Y. Malinovsky's Third Ukrainian Army which overran more than 100 additional inland places northeast north and northwest of the city.

Among the communities seized by Malinovsky's men, as announced in the official Soviet communiqué, was Karpovo. This town lies 20 miles northwest of Odessa and represents a 17-mile overland spur to the Russians southeast from captured Razdelnaya, the fall of which a day earlier cut off the enemy's last major escape railroad. Also taken was Sverdlovo, 13½ miles northeast of Odessa.

The only other rail line left to perhaps 200,000 Nazis in the Odessa area is the single-tracked coastal right-of-way, which depends on ferry service across the six-mile-wide Dniester river mouth.

In their efforts to keep open the narrow escape corridor, the Germans threw in large tank and infantry forces below Razdelnaya. A "flank blow" smashed these thrusts, said the communiqué adding:

"The Germans retreated hastily, leaving a great number of their dead on the battlefield."

In all, the Soviet bulletin listed some 3,600 enemy troops slain and approximately 2,000 others captured. Most of the dead were described as falling in the "annihilation" battles, now apparently in their final stages near Skala.

President Reports On Stabilization

Says 'Hold-The-Line' Program For Prices Has Been Maintained During Year

WASHINGTON, April 7.—(INS)—President Roosevelt made public a report from his war stabilization chiefs today flatly asserting that the "hold-the-line" program for prices has been maintained during the past year. The president said that on the average prices throughout the nation are lower today than a year ago.

The report, made on the first anniversary of the president's stabilization order, stated that while clothing prices as well as the cost of some few other items have increased "these increases have been fully offset by decreases in the prices of other items, notably food."

"The general level of the cost of living has not been permitted to exceed the cost of living as a whole is slightly lower than it was a year ago today."

"This record—one year of stable living costs—is unprecedented either in this war or in the last war."

HARRISBURG, April 7.—(INS)—The Harrisburg district OPA cautioned housewives today to take good care of war ration book four, the only one now in use, because it must last three times as long as earlier ones.

Local ration boards have reported frequent applications for new books, it stated, and warned that replacements may become increasingly difficult since additional books would not be printed for some time.

Housewives were also reminded that although brown meats-fats coupons in book three expired March 20, airplane stamp 1 was still good for shoes and other coupons may occasionally become valid.

ners, with an additional 253 chalked up as probably destroyed, the communiqué added.

Artillery batteries roared into action again after a 24-hour lull to permit exploratory thrusts by patrols along the main fronts. Within in Cassino, the enemy infantry concentrations and mortar emplacements near the ruined hotel continental—main enemy bastion in that town—were "neutralized" by the Allied barrage.

Other British and American batteries along the Anzio beachhead touched off a heavy explosion in an enemy-held house near Cisterna. Nearby, in the town of Carano which lies southwest of Carroceta, Allied tank destroyers knocked out Nazi machine-gun and mortar positions within a farmhouse and bagged an enemy tank.

On the long-dormant Eighth Army front, a German attack was launched south of Guardiagrele, but beaten back with losses.

wholesale escape by Russian seizure or severance of the main railways surrounding the town.

There was no definite announcement that ships of the Soviet Black Sea fleet had put in an appearance to harass the Germans attempting to get across the Dniester estuary by ferry. But even if the ships do not appear, one Russian column swinging southwest from occupied Karpovo may reach the river in time to put a halt to whatever evacuation may be in progress.

If that occurs, huge masses of German troops will be faced with annihilation or surrender.

The capture of Karpovo represented a 17-mile Russian advance from Razswynaya, where the main railway from Odessa into Northern Rumania originally was severed.

It is only a one-track line, poorly equipped and at the mercy of Soviet guns and bombing planes. Even the Nazi radio admitted it is incapable of handling "more than a fraction" of the German forces garrisoned in Odessa.

Moscow remained silent on the course of military and political events inside Rumania. But on the Skala front, the other major scene of Russian triumph at the moment, German attempts to break out of a steel trap were frustrated, and huge casualties again were inflicted upon the Nazis.

over enemy airfields in northern France. Throughout the morning and afternoon, a late communiqué revealed, the fighters struck at hangars, fuel dumps, flak towers, barracks, administration buildings and dispersal areas with bombs and machine-gun fire. The sweeps were believed in support of the earlier-announced Liberator bombing attacks against military targets in the Pas De Calais sector of the French invasion coast.

A study of reconnaissance photographs taken yesterday of Nazi-operated aircraft repair shops in Toulouse, hit by the RAF Wednesday night, showed that at least three of those plants were severely damaged.

The big Lancasters which flew hundreds of miles across enemy-held territory to blast the city, deep in southern France, virtually destroyed one large factory and crippled two others, the pictures revealed.

HOLLANDIA IS NOW IN RUINS

(Continued From Page One)

George C. Kenney, came just 48 hours after Monday's saturation assault in which the last of a force of 238 enemy planes was wiped out, setting up the base for the knock-out blow.

Not only were the raiders free of aerial interception, but enemy aircraft expended fuel in "moderate" to non-existent as the assault progressed. Not a single plane was lost.

Several B-24 pilots reported watching five large fires blazing within the gutted base and seeing at least one cargo vessel wreathed in flames at a nearby jetty. One of the configurations was visible 20 miles distant.

The latest assault was directed principally against the enemy-held township, waterfront areas, supply dumps and defense installations, whereas the previous attack was aimed at the main airstrips and gun positions. In addition to bombing the target area almost to the point of obliteration, the raiders shot down more than 250,000 rounds of cannon and machine-gun fire into key objectives.

'Oklahoma' Will Go To War Fronts

NEW YORK, April 7.—(INS)—"Oklahoma," that highly popularized and publicized musical story of the west, is going to move east—for the benefit of American troops on the fighting fronts.

The musical comedy, so difficult to see in New York unless reservations have been made long in advance, will be presented to the nation's armed forces overseas by two companies of the theater guild under USO auspices.

others traveling Highland avenue, as the winter has resulted in the old paving becoming considerably rougher than last summer.

Acres of hillside in the Oakland district between the Shenango river and Atlantic avenue were burned over last evening by a field fire. No damage was occasioned by the fire, as far as learned.

Pupils in the New Castle public schools are enjoying a holiday today, the first of two days vacation for Easter. There will be no school Monday, school resuming on Tuesday morning.

Hundreds of New Castle and Lawrence county residents observed Good Friday today by attending special church services in various parts of the city and county.

Hopes are entertained for good weather for Easter as a result of change in weather conditions today. The sun came up bright and temperature was ten or fifteen degrees higher than earlier in the week.

O. A. O. club members at the home of Mrs. Virginia Stewart, of Highland avenue, on Thursday evening. Bridge was in play. Prizes were awarded to Mrs. Emerson Flansburg, Mrs. Floyd Kelley and Mrs. John Kenahan.

A delicious repast was served by the hostess. In two weeks Mrs. Thomas Baskefield, of East Washington street, will entertain.

MISS DEE RECH AND J. L. CRUCHMAN WED

In the Wesley Methodist church Thursday evening, April 6, before an embarkment of ferns and palms, Miss Dee Rech, daughter of Mrs. Bessie N. Rech, of 319 Norwood avenue, became the bride of Joseph L. Cruchman, son of Mrs. Ida Cruchman, of 302 1/2 Pine street.

The impressive candlelight service was read at 7:30 o'clock by Rev. Paul Aley in the presence of a large gathering of guests. The single ring ceremony was used.

Given in marriage by her eldest brother, A. A. Rech, Canton, O., the bride was attired in a street aqua crepe dress, with accessories. Her head dress of white veiling embroidered with cut velvet was caught on either side with white flowers, matching her shoulder corsage of carnations and sweetpeas.

Attendants were the bride's sisters, who wore feather blue crepe dresses, with corsets, accessories, and Mrs. William Hays, Detroit, Mich., who wore a romance blue crepe dress with yellow accessories. Their matching hats of veiling and shoulder bouquets corresponded.

The bridegroom's attendants were Howard Boslick and R. L. Sellick of this city.

Usherettes were girls from the bride's Hi-Six-Ny Bible class: Geraldine Graham, Dorothy Ames, Aida Ketzel and Sarah Kegarise. Appropriate music was provided by Mrs. Mary Chalfault, preceding and during the ceremony, and she also accompanied a little nine-year-old Frances Rech, daughter of Mr. and Mrs. A. A. Rech, who sang "Lord's Prayer" and "I Love You Truly."

A congratulatory period followed afterwards, and a reception for 130 guests and friends in the church dining room. The couple departed on a trip later in the evening and will take up residence at 329 Laurel boulevard upon their return.

The bride, a graduate of Slippery Rock State Teachers college, is a teacher at Arthur McGill school, and Mr. Cruchman is an engineer at the Ellwood City National Tube company.

Out-of-town guests were Mr. and Mrs. William Hayes of Detroit, Mich.; Mr. and Mrs. A. A. Rech and Betty, Elliott and Frances Rech of Kent, O.; Pvt. Helen Y. Rech of Washington, D. C.; Mr. and Mrs. Raymond Murray of Cleveland, and Mr. and Mrs. David Locke of Hartsburg.

E-Z-Aces Club

Members of the E-Z-Aces club met in the home of Mrs. Emory Meyer, West Washington street, on Thursday evening.

Five hundred was enjoyed. High score trophies were awarded to Mrs. Walter Meister and Mrs. William Watters. Mrs. Elmer Rice captured the gallop.

Mrs. Harold McDonald of McKeesport and Mrs. William Thompson, who were special guests, received remembrances from the hostesses.

A tasty lunch was served by the hostess, aided by Mrs. George Kuntzsch. Next meeting will be in the form of a dinner in a downtown restaurant Thursday, April 20.

Mrs. Elmer Rice of Shaw street will entertain at the next regular meeting Thursday, May 4.

W. S. C. S. of Epworth

Group 3 of the Women's Society for Christian Service of Epworth Methodist church met recently in the church parlors, with Mrs. V. O. Potter, Mrs. Lillian Conner and Mrs. Grace Chain as hostesses.

Miss Ida Schnackle presided, and the devotional period, led by Mrs. Wayne Stitzinger, centered about "China." Colored slides "China's Changing West" were shown. Mrs. Gill, a member of the group who lived in China three years, displayed a number of articles brought from that country.

Mrs. Stitzinger told about the churches she had visited on her recent trip in the South. Dainty refreshments were served by the hostesses.

American Home Watchman

For Eureka No. 45 American Home Watchmen met in McGowan hall recently for their regular business session. Plans were completed for their annual anniversary dinner on Tuesday, May 2, when Supreme Commander Beryl Sanborn, of Philadelphia, will be the honored guest. A donation of \$10 was made to the Red Cross by the fort.

Five hundred and other contests were enjoyed during the social period. Prizes were awarded holders of high scores. Next meeting will be Tuesday, April 18.

Reunited Ladies Club

Reunited Ladies club met at the home of Mrs. Mont Skidmore, of Court street, Thursday evening. Games were enjoyed. Prizes of defense stamps were awarded to the following: First, Mrs. Mont Skidmore; second, Mrs. Ruth Conn; third, Mrs. Martha Campbell. Mrs. Charles Strong received the door prize.

In serving a lunch the hostess was aided by Mrs. C. E. Thompson. Next meeting will be in two weeks with Mrs. Elsie Phillips, of Maryland avenue.

COUNTY GARDEN CLUB HAS LUNCHEON PROGRAM

Lawrence County Garden club was entertained Thursday afternoon for 1 o'clock luncheon at the home of Mrs. John Louder, of Englewood avenue. Mrs. Robert W. Lamoree presided at a table centered with spring flowers and yellow tapers.

Of special interest on the program for the afternoon was a reading given by a guest, Mrs. S. Fred Sondecke of Youngstown, and the presentation of new year books for 1944-45.

During business conducted by Mrs. Lamoree, the program panel of officers were re-elected for the new year, as follows: president, Mrs. Robert Lamoree; first vice president, Mrs. Otto Pearsall; second vice president, Mrs. Carl E. Paisley; recording secretary, Mrs. John Louder; corresponding secretary, Mrs. Harry Wettich; treasurer, Mrs. C. A. Burckart; member at large, Mrs. W. R. Allen.

Annual reports given included one by the rose garden project chairman, Mrs. William Berkstreser. Members of a new project committee appointed are Mrs. Otto Pearsall, Mrs. W. R. Allen, Mrs. T. A. Clark, Mrs. L. P. Royston and Mrs. Harry Wettich. Ways and means committee for the project is Mrs. J. W. Moorehead, Mrs. J. C. Gilligan, Mrs. Mrs. John Louder. The club planned a home-canned goods sale at the next meeting and a plant sale in May.

Mrs. Pearsall presented the new rosters in colorful covers of a conventional rose design on a processed background of green. Other members of the program committee are Mrs. T. A. Clark and Mrs. G. R. Crawford.

Mrs. C. E. Paisley introduced the speakers, Mrs. C. M. Whitaker and Mrs. R. G. Campbell, who gave very fine papers on "Government Control of Pests" and "Farmers and Home Gardeners' Control of Garden Enemies."

Mrs. S. F. Sondecke sister of Mrs. L. P. Royston, interested the group with her readings of an original composition, "The History of the American Flag" and an original poem, "In Old Mexico."

The club will meet next on May 4 at the home of Mrs. C. A. Burckart, of Englewood boulevard, when Lewis C. Dayton, county agricultural extension agent, will be the speaker.

NAVY INDUCTEE IS HONORED AT PARTY

William Ginsburg of 525 Wolfe street, a Navy inductee who is leaving on April 10 for service in the U. S. Navy, was the guest of honor at a farewell party held by friends and neighbors of the Patch apartments Wednesday evening, the event being held at the residence of Mrs. and Mr. Rex L. Patch of 507 Florence avenue.

Card playing was the pastime during the evening, and following a delicious lunch was served on a nicely arranged table. Those serving were Mrs. Walter Lichtenstine, Mrs. William Carr, Mrs. William Nesbitt and Mrs. Willard Perdue.

The honored guest was the recipient of a useful gift presented from the group present.

Washington Calling

By MARQUIS CHILDS

Governor Dewey

ALBANY, N. Y., April 7.—If the Republican national convention were to be held tomorrow, the nominee, short of some miraculous upset, would be the small, precise, careful man who sits in the governor's chair here in Albany.

The major forces within the party are moving to make Governor Thomas E. Dewey their choice for the contest this fall. Some Republicans would like to see him stopped. At this point they do not have sufficient power to counter a movement that has already advanced so far.

Of course, a great deal can happen between now and June 28. Some striking new trend may develop in the primaries. Wendell Willkie is bold and resourceful. He dislikes Dewey intensely.

But today, Dewey is the probability and he knows it as well as anyone else. Out of the corner of his eye he can see destiny on the other side of the street. Carefully, cautiously, the governor of New York is looking the other way.

Looking Other Way

His present intention is to go on looking the other way until that June 28 date in Chicago. Partly this is strategy. It may be, in terms of hard-boiled politics, the surest way to win the nomination. You take the fewest risks that way.

Then, there is his pledge that if elected governor of New York, he would not be a candidate for any other office. He made that pledge during his campaign in 1942 and again at the time of his inauguration. The pressure from every side is great, but Dewey wants to keep, technically at least, to the letter of his promise.

Partly, the governor's determined silence is more than strategy. I think he has a fatalistic attitude toward the rendezvous he may or may not keep at the end of June.

Dewey knows well what a terrible ordeal the next four years in the White House will be. The next president, whether Republican or Democrat, will have the task of conducting the war, working out a peace and restoring the economy to something like normal. Such is the magnitude of the undertaking, such the courage and disinterestedness called for, that a Republican going in might sacrifice himself as a one-term president.

To Come As "Draft"

Knowing all this, Dewey is bound that if it comes to him, it will come without his having actively sought it. He wants to be able to tell his party in convention assembled that he is responding to a draft; that he did not deliberately put his head in the noose.

For a "draft," the Dewey forces are fully prepared. The Dewey record is being carefully assembled. With Destiny looming just across the street, Dewey is walking more carefully than ever before. If the man has a passion for anything, it is a passion for detail. Recently he spent an entire evening studying a bill passed by the legislature to grant an upstate grocer \$451 for groceries he sold to a state institution and claims he was never paid for. The governor vetoed the bill.

The outline of the campaign he would conduct against Roosevelt is fairly clear. It would be a shrewd campaign. It would unsettle many of the wealthy Republicans who now hope for his nomination and election.

"Middle-of-the-Road"

Dewey wants to make himself the middle-of-the-roader, with the New Deal on the one hand and Republican reaction on the other. He uses the term "middle-of-the-road" frequently in discussing policy with his associates. He would not clamor for destruction of the New Deal.

In analyzing his record as governor, Dewey stresses on the one hand the extension of social reforms and on the other hand, the way in which he claims to have cleared out the mess left behind by a Democratic administration too long in power. This he would tell the voters, he could do in Washington as he has done in Albany.

As a campaigner he can be very effective. I have just travelled in three states where he made brief appearances in 1940. His favorable reaction he made then is favorably remembered. He is merely by professional politicians.

If Dewey is the final choice, the Republicans will get a smooth operator. He is ready and waiting for that tap on the shoulder.

Great Game Of Politics

The McNutt Situation

WASHINGTON, April 7. THE STATE of affairs which has arisen over the vital question of manpower reveals such vacillation, contradiction, confusion and feebleness within the Administration that those who insist that this is the worst muddle since the war began do not appear to exaggerate. Actually, the situation is without precedent—and almost beyond belief.

HERETOFORE it has been accepted that when the aide of a President publicly differed with his chief on an important policy, there was but one thing for him to do—namely, resign. Nothing else makes sense. Under such circumstances to remain in a key position is clearly ridiculous. No business, big or little, could function that way and no Government should. When Mr. Lewis W. Douglas, Mr. Dean Acheson, Mr. John W. Hanks, Mr. George Peek and others found themselves in fundamental disagreement with Mr. Roosevelt, they tendered their resignations and got out. It never occurred to them—or to anyone else—that any other course was possible.

THIS IS what makes the attitude of the President toward Manpower Commissioner Paul McNutt and Mr. McNutt's attitude toward the President so difficult to reconcile with reason. Increase In Fire Bombs Bodes Ill For Japs
Indications Point To A Hot Time For Tokyo
Balkan Move Weakens Nazis Western Frontier

By HELEN ESSARY

(Central Press Columnist)

WASHINGTON, D. C., April 7.—America's plans to use fire bombs in greater numbers than explosive missiles indicates that Tokyo is in "for a hot time" in more ways than one.

The next time Yank flyers raid Tokyo the city will be showered with thousands of devastating fire bombs which may put a big dent in the Pacific enemy's ability to check Allied offensive sweeps.

However, military experts warn that this does not mean the so-called "paper" buildings of Japan will be wiped out in one great raid. Tokyo and other cities undoubtedly have been taking precautions to check the spread of flames in event of an incendiary raid.

Credit for the fire bombs used by the Allies goes to experts in the Army's chemical warfare service. The devices are clever modern counterparts of one of the oldest and most effective weapons of war—crude fire balls used by ancient armies.

Hitler Has Headaches
THE STEAMROLLER ADVANCE of the Russian Armies into the Balkans presents Hitler with one of his greatest military problems.

It has become militarily necessary for the Germans to occupy Hungary, Rumania and Slovakia with troops, but some of these undoubtedly have had to be withdrawn from numbers held in reserve to face the Allied invasion from the west.

In addition, as German troops march into the Balkans, underlying ill-will towards Nazism doubtlessly becomes more intense among the occupied populations.

Thus, every move made by the German high command to bolster their eastern front creates new unrest and uses up more sorely needed troops with which to face the western invasion.

ALTHOUGH LIEUT. COMDR. HAROLD STASSEN, now serving on Admiral William F. Halsey's staff in the South Pacific, has announced himself as "available" for the G. O. P. presidential nomination, political observers figure that he has slight chance of success.

LOOKING AT LIFE

By ERIC BRANDEIS

More than one hundred automobiles with New York license plates were found parked at the Miami race track a few days ago.

Hundreds of cars with licenses from all over the East, Middle West, and South are seen daily in Florida resorts.

At last—now that the season is almost over—the OPA is making a checkup of these cars.

Unless they have gone on business, said an OPA enforcement officer, "there is not a single New York car legally in Florida. That applies to many other states as well."

"An 'A' book, providing all coupons for one period were saved, would take a Florida-bound New Yorker only as far as North Carolina."

I don't know why the OPA has waited all this time to get excited over pleasure-drivers in Florida. Maybe it's for the same reason that the local authorities down there always wait until spring to close the gambling houses or why the Atlantic City police never know until the end of summer that there is commercialized vice in that resort.

The thing that I am wondering about is the easy conscience of the people who do the pleasure driving. I wonder how they feel when they read about some friend's boy being killed in action.

I wonder how they like hearing of the tortures and starvation their fellow citizen suffer in Japanese prison camps.

Get Fighting Mad On Home Front Is Demand Of Officer

NEW YORK, April 7.—(INS)—Lt. Gen. George Grunert, commanding general of the Eastern Defense command, called on Americans Thursday to get as "fighting mad" on the home front as the boys are on the war fronts in order to win the war.

General Grunert spoke at Army day ceremonies in New York.

"The will to fight and win at the front can be weakened and undermined by the lack of that will at home," he warned.

"Let us with firm determination at once eradicate all complacency, uproot and cast out all inertia, and by getting fighting mad, win our fight on the home front so as to free the spirit and will to win of our men on the battlefield."

THE GREAT GAME OF POLITICS

(Continued From Page Four)

legislation was "inevitable". In February of this year he was again for compulsion on the ground that the armed services knew what they needed and their judgment should not be questioned. That was eight weeks ago. Now he is back on the other side of the fence, opposing the President all the heads of the armed forces and the War Shipping Administration. And still, he retains his post as one of the most important of the Presidential aides, charged with one of the most important jobs in the whole Administration.

WHAT is the answer to all this? What is the matter with the President that he permits an aide to remain after he has been to Congress disputing his judgment and urging that body not to carry out the Presidential request on a matter essential to the winning of the war? What is the matter with Mr. McNutt that, differing on such a matter with the President and all our military and naval heads, he does not tender his resignation? If there is an adequate explanation it has not been advanced.

THE SUGGESTION that Mr. McNutt, a very practical Indiana politician who never has been known to clash with authority, would not have performed as he has had he not known that Mr. Roosevelt, politically close to the labor bosses, was not really anxious to have the bill passed—that suggestion implies such degraded double dealing upon the part of the President that it must be rejected. A more palatable suggestion is that Mr. Roosevelt not having been too well lately and always heavily burdened, has not grasped the full implication of the McNutt attitude, and that Mr. McNutt, being obviously cloudy in his mind on his subject and somewhat deficient in the ethical sense, has not realized the position in which he now is. It is hard to tell. Also it is hard to imagine this sort of thing happening in any other war administration in any other country in the world.

THE PARENT PROBLEM

(Continued From Page Four)

cause of holding food in the mouth and of vomiting during feeding. Even at any age, haste at feeding and pushing food into the child against his will is about the worst possible thing to do. Indeed, it is the source of most eating problems in young children.

Practically every mother is tempted to slip food into the baby's mouth when he is not looking, and as this seems to work, she will invent means of distracting him. Yet every time she gets food into him through this trickery, she builds up in him more resistance to food. She decreases his appetite.

Help Child's Appetite

But the infant may not take enough food, not nearly so much as the doctor has prescribed. Don't let this bother you. I wish the pediatrician would set the mother right on this. Merely consider the desirable amount he will eat two weeks or months hence.

As soon as the infant shows interest in helping guide the spoon or even to put some mash into his mouth, regardless of the time required and mess created. Do everything possible to help him enjoy eating. Young mothers will find further concrete guidance along these lines in my special bulletin on "Eating," to be had for postage in the usual way.

Just remember that the baby does the eating. Introduce new foods very gradually. Aim to put food to his mouth with his cooperation. End

his meal as soon as he wants no more. Think always in terms of his appetite tomorrow and later. Have no emotion over his eating. If, in spite of these ways, you still fail after a month or so, consult your doctor.

Solving Parent Problems

Q. When a child is doing written home work is it well to spell words he asks you to spell?

A. Yes; it should help him to be more careful with his spelling and afford good championship with him.

THE WORLD AND THE MUD PUDDLES

Olson in this regard. The same is true in twenty-four other states. Against the possibility of the Republicans falling into error of complacency, can be balanced the same thing about the Democrats. They fail to realize that we are entering this campaign with three parties. The New Dealers will have a candidate. The Democrats will have to decide, as individuals, whether to vote for the Republican or the New Dealer and many of them will vote for the Republican. There is no idealism in this analysis. There is little of it in smoke-filled committee rooms at party conventions. It is merely a statement of cold political facts with which other major parties must contend.

Television Barrier
Reported Hurdled
By New Tube Plan

NEW YORK, April 7.—(INS)—The General Electric company disclosed today that the last major problem blocking coast-to-coast television broadcasts has been hurdled with development of a tiny vacuum tube generating frequencies up to 1,000 megacycles.

The new transmitter tube, measuring only four inches in contrast to the giant tubes used in regular broadcasting, makes possible the relaying of television programs, whose transmitting distance up to now has been limited to the horizon. Television equipment now in operation does not operate efficiently above 80 megacycles.

GE officials said the new tube will be used in an experimental two-way television hookup between New York and Schenectady, using four high-frequency ultra-high frequency relay stations, to be set up as soon as the necessary manpower and materials are available.

James D. McLean, GE commercial engineer, said his company foresees 100 active television transmitters in operation within five years after the war, with an estimated audience of 67 million. A. A. Brant, general sales manager, said postwar production of good quality home receivers retailing at about \$200.

Wounded Veteran Of
West Middlesex Is
Home From Overseas

WASHINGTON, April 7.—Three times wounded in nearly two years of infantry action overseas, Private William Gilliland of West Middlesex, Pa., is back in the United States for a 20-day furlough under the army rotation plan. Private Gilliland was in the invasion of Africa, all through the African and Tunisian campaign, through the Sicilian campaign and in the Italian campaign until he was ordered home. He was with the Ninth Infantry Division until after the Sicilian campaign and then transferred to the Third Infantry Division. He has the Purple Heart with two clusters for wounds received at El Guettar in Africa, at the first crossing of the Volturno river in Italy and at Orchi, Italy. He is spending his furlough with his home folks.

AROUND
CITY HALL

Gulf gas station near Mahoning viaduct was entered last night. A cash register was stolen, smashed beneath the viaduct but there was no money in it. A cupboard was also entered but nothing was removed from it, police reported today.

Streets Department Director James Gibson reported today that department employees were removing ashes from streets where they had been scattered to minimize the possibility of motor car accidents on snow-covered thoroughfares.

Charge Too Much
Grain Is Used

PITTSBURGH, April 7.—(INS)—The Union Brewing company, of New Castle, and its officers, were charged in an information filed in federal court today with violating the Second War Powers Act by using more malted grain than is permitted in the manufacture of beer.

It was alleged the brewery used 178,680 pounds of grain in excess of its quota between March 1, 1943, and February 1, 1944.

Officers of the company named in the information filed by U. S. Attorney Charles F. Uhl were: Louis Genkiner, president; Norman Ward, vice president; Adolph Green, treasurer, and G. V. Fleischhaker, secretary.

FLIERS REWARDED

WASHINGTON, April 7.—(INS)—The war department announced today that Tech. Sgt. Lewis T. Horton, Campbell, Mo., aerial engineer who fought flames on his B-24 Liberator with armed fruit juice, has been awarded a Silver Star.

Horton's crewmates, Capt. John J. Lieb, Atkins, Ia., pilot, and 2nd Lt. William L. Welsh, Tucson, Ariz., navigator, were awarded Distinguished Flying Crosses for bringing their badly damaged plane almost a thousand miles to its home base.

IN U. S. ARMED SERVICE

(War Censorship Regulations Limit Information Allowed in This Column)

Sgt. Robert Gallagher, recently assigned to a field hospital in the Hawaiian Islands, reports that he had a nice visit with his brother, Eddie, who is stationed in the Pacific area with the U. S. Navy, and whose base is only twelve miles away. They both received an additional pleasant surprise when their brother, Vincent, machinist mate on an airplane carrier arrived in the islands and joined them. Vincent has been serving in the Atlantic area and had made a number of trips to North Ireland. A fourth brother in the service is Lt. John Gallagher. They are the sons of Mr. and Mrs. J. V. Gallagher, of 624 Taylor street.

News of the first meeting in three years of two brothers from here is contained in a V-mail letter received by Mrs. Emery McFarland of 1213 South Mill street from her son, Jack Emery, M.P. He and his brother, Capt. Oren McFarland had dinner together in Italy recently, the first time they had seen each other since 1941.

Alfred Apicelli, 716 Croton avenue, left for the Navy on December 4, 1943. He received a diploma and graduated a pharmacist's mate third class in the United States Navy on March 31 in the Hospital Corps school. He has been awarded a certificate of graduation by the bureau of medicine and surgery, Navy department, Washington, D. C. He graduated as an honor student.

Mr. and Mrs. W. C. Davis, 414 Laurel boulevard, have received word that their son, Pvt. William F. Davis, has arrived safely in Australia. Private Davis is a sheet metal specialist in the Army Air Corps.

S-2 Gerald F. Kornumpf has returned to the U. S. Naval Training Station, Bainbridge, Md., after spending a nine-day leave with his parents, Mr. and Mrs. Levi Kornumpf, 311 Pine street.

S-2-c Carl Lyons has returned to the U. S. Naval Training Station at Bainbridge, Md., after spending a nine-day leave with his father, Charles Lyons, 595 Whippo street. William George Snider, of 497 Blaine street, who has been in training at the Great Lakes naval training station, is enjoying a nine-day leave at his home.

Pvt. Earl Marker, who recently returned to the United States after

being in Greenland for 14 months, is concluding a 20-day furlough at his home and will leave for Camp McCoy, Wis., for assignment.

Judd Lamson, assistant manager of The Castleton hotel has been commissioned as an ensign in the United States naval reserve. He has been ordered to report for duty on April 17. Mr. Lamson will be sent to some college for his indoctrination course after which he will be assigned to active duty.

Mrs. Gregory DiCaprio, of 765 Lathrop street, has received word that her son, Nick DiCaprio, of Camp Phillips, Kansas, has been promoted from private to technician fifth grade. He visited his family recently during a 12-day furlough.

Corp. John D. Thompson, of Fort Jackson, S. C., is attending the University of South Carolina in Columbia. He is the son of Mrs. Lillian A. Thompson of 708 Allen street.

Corp. Walter E. Wilson, Jr., of the armored tank division, Fort Knox, Ky., has been visiting his parents, Mr. and Mrs. Walter E. Wilson, Sr., of 703 State street. Corp. Wilson took part in the graduation ceremonies at the armored school on April 3. He was one of three to receive a certificate for the highest honors as tank mechanic. He has left for a camp in Texas, where he will join his company and assume his duties as mechanic.

Corp. Wilson graduated from New Castle Senior high school in the class of 1942 and was trombonist of the band that year.

Mrs. Ernest A. DeJoseph, of 322 Hawthorne street, has received a cable from her husband, Lieut. Ernest DeJoseph, stating that he has arrived overseas. He is the son of Mr. and Mrs. Anthony DeJoseph, of 1117 Croton avenue.

Pvt. Carol Bannon, U. S. M. C. W. R., daughter of Mr. and Mrs. Natale Stagno, of Pearson street, has concluded her boot training at Camp Lejeune, N. C. Pvt. Bannon will now go to Oklahoma to train as an aviation cadet. Her husband, Pfc. Francis Bannon, son of Mr. and Mrs. Walter Bannon, of West Pittsburg, is stationed at Manchester, Conn. Later both will have furloughs and will be here.

Staff Sgt. Jack A. McGuire, son of Mr. and Mrs. John P. McGuire, of 217 Northview avenue, is home for a 20-day furlough after spending the past 2½ years in the Caribbean area.

Seaman 2-C Frank H. Shuler, son of Mr. and Mrs. John W. Shuler, Sr., of 1313 West Washington street, has returned to the Great Lakes Naval Training Station, Ill., after spending a 12-day leave at the home of his parents.

Word has been received by Louis Sisco, of 5 East Reynolds street, that his son, Sgt. Stanley Sisco, who is attached to the infantry, has arrived in North Africa.

Mr. and Mrs. R. C. Zeigler, of 1821 East Washington street, have received word that Walter Zeigler of the U. S. Army, has been promoted to corporal. Corp. Zeigler is stationed at Trinidad.

Pvt. William C. Zeigler, of 104 Madison avenue, is one of the United States Army's infantrymen who are training in England for the invasion of Europe.

Pvt. Anthony Owoc, has been transferred from Camp Stewart, Ga., to Camp Mackall, N. C. He is the brother of Mrs. W. H. Scott, of 113 North Wayne street.

A. S. Chester F. Rowe, husband of Mrs. Jessie Rowe, of Bessemer, is stationed at Great Lakes Naval Training Station, Ill. He is the son of Mr. and Mrs. Robert H. Rowe, of Bessemer. Another son, Robert W. Rowe, is stationed at the University of Chicago in signal and radio work.

A. S. Leroy Frank Stafford, of New Castle, has arrived at the U. S. Naval Training Station, Great Lakes, Ill., for duty.

The following New Castle men are receiving their boot training at the Naval Training Station, Great Lakes, Ill.: Paul Wallace, son of Mr. and Mrs. Albert Miller, R. D. 5; Edgar Stroud, son of Mr. and Mrs. Edgar Stroud, of R. D. 1; John Pavne, of 317 Shaw street.

Word has been received that Sgt. Pete Horney has been transferred from Fort Knox, Ky., to Camp Bowie, Texas.

Mrs. Basil Buchner, of New Castle, has received word that her husband, Basil Buchner, U. S. Navy, has been advanced to ensign. Ensign Buchner has served overseas since August, 1943.

Russell Reid White, seaman 1-C, arrived home Wednesday to spend an 11-day leave with his mother, Mrs. Edna White and family, of Castlewood.

Now receiving basic flight training as an aviation cadet at the Bainbridge Army Air Field is Frank P. McNeese, son of Mr. and Mrs. Oliver J. McNeese, 210 Milton street. He completed pre-flight training at Maxwell Field, Ala.

Says She's Too Old For Public Office

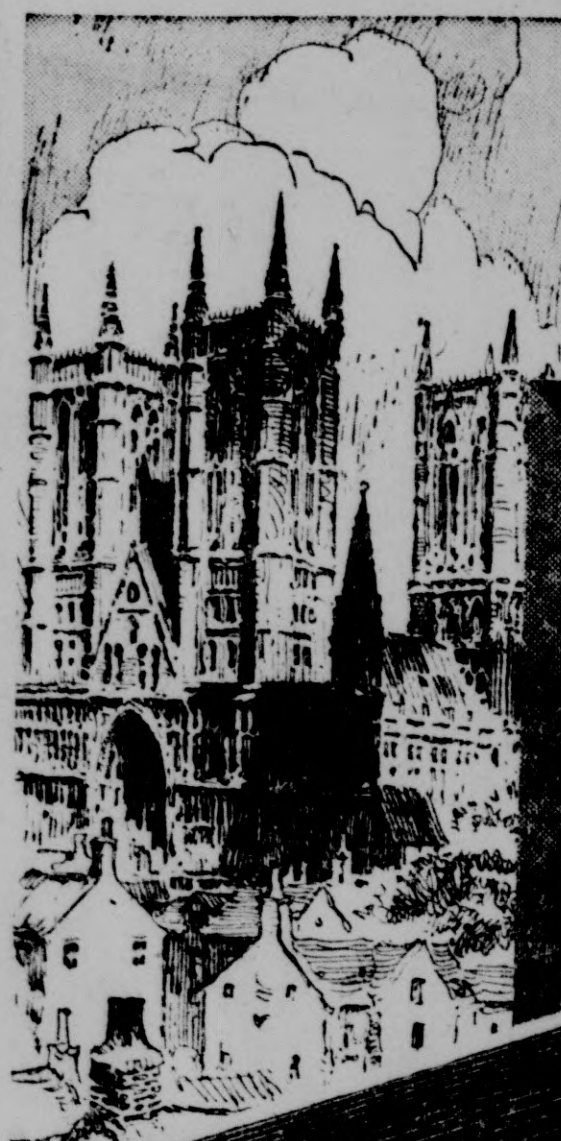

WASHINGTON, April 7.—(INS)—With a frankness not admitted by many of her sex, Mrs. Franklin D. Roosevelt said Thursday that she was "too old" to take any public office.

The subject came up during her news conference, when she was asked about the place of women at the peace conference.

Mrs. Roosevelt said that she would be 60 years old at her next birthday and that "nothing on God's green earth would induce me to hold any public office."

"This is a young persons world and there should be young women at the peace table," she emphasized.

There are close to 50,000 persons in New York City that subsist entirely on the profits of crooked gambling.

Assails O.P.A. As Being Political And Inexperienced

PHILADELPHIA, April 7.—(INS)—The office of price administration today was branded "inexperienced and political," by George A. Casey, chairman of the board of the National Independent Meat Packers Association.

Casey charged that the present rationing system is the root of all black market evils. He explained that if rationing points for meat

were lowered, the black market would collapse.

"Everybody would have everything—steak every day if they wanted it," he said, because "there is enough for all."

In an address to the Philadelphia Business club he urged members to "complain publicly about unfair distribution of meat and butter and to watch out for everyone taking advantage of you."

"There's enough butter everywhere so why shouldn't you all have it?" he declared.

Argentina has banned the description of "sidra champagne" on labels and advertisements connected with cider.

State C. Of C. Renames Bulette

HARRISBURG, April 7.—(INS)—William C. Bulette, of York, headed the Pennsylvania State Chamber of Commerce today for another year following his re-election last night at its 27th annual meeting in Harrisburg.

H. W. Prentiss, Jr., of Lancaster, president of the Armstrong Cork Co. and former president of the National Association of Manufacturers, was elected first vice-president, while Edward Hopkinson, Jr.,

of Philadelphia, was named second vice-president.

Re-elected to office for another term were Harry C. Graham, of Pittsburgh, third vice-president, and Otto G. Hitchcock, of Erie, fourth vice-president. William E. Earnest, of Harrisburg, was named treasurer.

Plans To Request Probe Of Possible Post Office Leaks

WASHINGTON, April 7.—(INS)—Sen. Reed (R) Kan., planned to ask the senate post office and post roads committee today to consider investigating possible post office or censorship leaks in the case of Miss Vivian Kellems, Connecticut manufacturer.

Miss Kellems has demanded to know how Rep. Coffee (D) Wash., and Columnist Drew Pearson obtained excerpts from correspondence she had with Count Karl von Zedlitz of Argentina, whom the congressman branded a Nazi agent when he read portions of the letters to the house last week.

Reed, ranking Republican member on the senate committee, advocated a congressional probe of the office of censorship's mail program as well as possible illegal interception of Miss Kellems' correspondence while it was in the hands of the post office.

Red Skelton Seeks Marriage License

LOS ANGELES, April 7.—(INS)—Red Skelton, whose first wife blamed their divorce on his "terrific sense of humor," today had wisecracked himself out of getting a license to wed Muriel Morris, blonde model.

He and his fiancée applied at the Hall of Records for the license and after the application had been filed out the comedian quipped:

"Now, who takes the blood?"

"Don't you have your health certificate, signed by a physician?" asked the marriage bureau clerk.

"N. I just thought you had to wait three days," said Skelton.

It was explained that while the legislature had abolished the three-day wait, health certificates were needed.

Skelton immediately made arrangements to have the blood tests made today, and the license will be obtained sometime during the afternoon.

Tax Collections Set New Record

PITTSBURGH, April 7.—Income tax collections due and payable March 15 last totaled \$208,299,917.72 and set an all-time high record, it was announced last night by Stanley Granger, local collector of internal revenue. This is an increase of \$18,189,081.20 over the previous year's collections, when the total was \$190,110,836.52.

The amount collected during the period recently ended is in addition to the five per cent victory tax effective during the first six months of 1943 and the 20 per cent withholding tax paid during the last half of the year.

Granger expressed the opinion that the big increase is the result of higher wages and increased employment throughout the 24 counties of his internal revenue district and also of the higher tax rates.

Your Estimated Income Tax

YOUR ESTIMATED INCOME No. 3

HOW TO FILL OUT THE FORMS

Certain taxpayers are required by law to make a declaration of estimated income and victory taxes for 1944. Persons who are not outside of the continental United States on April 15, 1944, must file their declarations on or before that date, except that certain farmers may elect to wait until December 15, before they file. The taxpayers who file are those that are not kept up to date on their income tax payments by withholding from wages.

They owe additional tax either (a) because their wages are not subject to withholding or are high enough so that they are subject to tax rates that are higher than the withholding tax, or (b) because they have other income—such as rents, dividends, interest, or profits from property or stock transactions—from which no tax is withheld. After the close of the year, an annual income and victory tax return shows the actual figures of income, deductions, tax liability, and payments for the year.

The form on which the declaration of estimated tax for 1944 is to be made, Form 1040-ES, is a short slip 3"x8" inches, and is the only form that needs to be filed by the taxpayer. Copies of the form have been mailed to all persons who filed declarations for 1943, together with two alternative work sheets furnished for their convenience. Other persons may obtain forms from any collector of internal revenue upon request. The taxpayer needs to use only one of these work sheets, which ever may be the one best suited to his circumstances, and should retain it for his personal record.

Filling out the work sheet is a process similar to the making of a regular return, except that it deals with estimates instead of actual figures. There is first estimated the total of all income which may be received in 1944, based on past experience in regard to salary, interest, dividends, rentals, sales, etc., and future probabilities.

The approximate amount of tax due on that income is then determined. In a short-form work sheet it is necessary only to enter the amount of estimated total income from all sources, including the net profits from farming and other business, deduct an allowance for the personal exemption status, and insert the appropriate amount of income tax as shown in the table on the back of the form. This form

has no entries for deduction of expenses, since the income taxes (normal tax and surtax) indicated in the table were computed after making allowance for average deductions, such as interest, taxes and contributions, approximating 8 percent of the net income after deduction for personal exemption. In order to give effect to these deductions without actually showing them in the form, the amounts used for personal exemption and credit for dependents are increased, so that they are larger than the figures used for the regular return, but the Bureau of Internal Revenue has approved their use for the making of estimates.

In determining the victory tax, there is deducted from the total income a specific exemption, and a tax of 3 percent of the balance is computed and entered in the proper space. The total of the income tax plus the victory tax is then entered in line 1 on the face of the declaration.

An alternative form of work sheet is intended for taxpayers whose probable income is over \$10,000, and for those with smaller incomes who expect to have unusually large deductions or who otherwise desire to make a more detailed computation of their tax. This worksheet permits an estimate of each separate item of the income and allowable deductions, with an exact computation of the tax upon the resulting estimated net income, after allowance for personal exemptions and credit for dependents. In general, the items on this work sheet relative to income, deductions and tax are the same as on the final tax return which is usually filed after the close of the year. A table is included showing the combined normal tax and surtax rates applicable to the various income brackets. The total of the income tax (normal tax and surtax) plus the victory tax is then entered in line 1 on the face of the declaration.

The law also permits taxpayers to estimate the tax by computing it on last year's income at this year's rates and exemptions, provided the payments are made on time. Amended declarations may be filed on or before any installment date up to December 15.

Having entered the estimated total tax on line 1 of the declaration, there is now deducted from this figure the amount of tax which may reasonably be expected to be paid at the source during 1944 by withholding from wages (for instance, multiply the amount withheld each payday by the number of paydays during the year).

The balance is the amount, referred to in the law as the "estimated tax for the taxable year," which is payable directly to the collector of internal revenue in quarterly installments. When an amended declaration is filed, there may also be deducted the payments previously made on the estimated tax. If a taxpayer had an overpayment for 1943 he may have elected to apply it as a credit against the 1944 estimated tax, in which case it will be treated as a payment on the first installment of the estimated tax, and if the credit is larger than that installment, the remaining credit may be applied against the next installment, and so on.

Farmers, 80 percent of whose gross income is derived from farming, may elect to wait until December 15 to file a declaration for 1944. They will pay their entire estimated tax in a lump sum at that time, without the privilege of installments.

Urges Drafting Of Seventeen-Year-Olds

CINCINNATI, O., April 7.—(INS)—Brig. Gen. Albert L. Cox, who retired from the Army as provost marshal for the District of Columbia, urged today the drafting of 17-year-old youths to ease the apparently acute Army manpower shortage.

In Cincinnati for an Army Day address, General Cox said, "they would make much better soldiers than fathers taken away from their families and business acquired by many years of hard labor."

General Cox, commander-in-chief of the military order of the World War, added, "I don't believe the 17-year-olds should be sent into combat until they have had a full year's training. However, they certainly would be physically able to whip twice their number of middle-aged men who have lost whatever taste they might have had for Army life."

In August, 1908, Wilbur Wright first flew at Le Mans, France, astonishing European scientists. In September, still at Le Mans, he made a world's record of 60 miles in 1 hour and 31 minutes. In December he won the Michelin trophy with a flight of 2 hours, 20 minutes, 23 1/2 seconds.

Place Your Order NOW for Frozen Food Lockers

The F. W. Walker Company contemplates the construction and operation of refrigerated food storage lockers in a plant at the proposed location of 426 North Croton Avenue, New Castle, Pa. By reason of certain restricted materials going into the construction of this equipment, the War Production Board has set up regulations governing the building of new locker plants for the year 1944.

The War Production Board requirements for cities and surrounding areas, with a population equal to that of New Castle and vicinity, provide that 70 per cent of the contemplated locker capacity be rented to as many families who are producers of foods, and further, that advance rentals be collected and deposited with an Escrow Agent, which may be a local bank or other agency.

The F. W. Walker Company has arranged with the First National Bank of Lawrence County to act as Escrow Agent for the collection of funds from applicants for locker rentals. This bank will hold all funds so deposited in Escrow until such time as the proposed plant is constructed and ready for use. In case this project is not approved by the War Production Board, the First National Bank of Lawrence County will refund to each and every applicant the amount deposited in this Escrow Account.

Additional Sums Are Added To Red Cross War Fund Total Here

Actual Cash In Bank Now Totals \$61,120 Check-Up On Thursday Night Reveals

Several additional amounts which had not previously been reported were added to the Red Cross War Fund total here in the last few days. It was reported at the campaign headquarters in the Penn. Power Company building, which will swell the total beyond the \$132,000 mark noted early in the week.

The actual cash receipts at the headquarters, exclusive of the amount raised by the Ellwood City branch, stood at \$61,120.55 at the close of business on Thursday, it was reported.

Some contributions are still coming in by mail, and the \$20,000 shortage shown early this week may be materially reduced when the final amount is checked.

Both court rooms will be used and the speakers will alternate between the two rooms.

In addition to the two speakers mentioned, Harvey B. Bush, candidate for the Republican nomination for State Senate will speak. Assemblymen James C. Brice and W. Sharp Fullerton will be introduced from the platform and other candidates who will be introduced are the candidates for delegate and alternate delegate to the Republican convention.

This will be the only Republican meeting of any size before the primary election on April 25.

Secrecy Surrounds Probe In Scranton

SCRANTON, Pa., April 7.—(INS)—Unusual secrecy continued today to surround deliberations of the federal grand jury which was reconvened yesterday in Scranton at the request of the Department of Justice.

After newspapermen were barred from the courtroom they were requested by Max H. Goldschein and Boris Kostelanetz, special assistants to Attorney General Francis Biddle, not to publish the names of witnesses called to testify before the grand jury.

No statement was forthcoming from Judge William F. Smith, of Newark, N. J., or other federal officials or court attaches to indicate whether the jurors were summoned to investigate the official conduct of Federal Judges Albert W. Johnson, of Lewisburg, and Albert L. Watson, of Scranton, of the Pennsylvania middle district court. A probe to that effect was recently begun by a House Judiciary committee.

Neither was there confirmation of reports that the attorney general's office would ask the grand jury to return an indictment against the two federal jurists who have been under fire in Congress.

Judge Smith was ordered to reconvene the grand jury after it adjourned last week following its regular March session, by Judge John Biggs, Jr., senior judge of the U. S. court of appeals, Philadelphia.

Man With Two Families Hopes To Enter Navy

BRADDOCK, Pa., April 7.—(INS)—John Macko, of North Braddock, today hopes that he will pass his physical examination for induction into the navy so that his scrambled love life will be solved for the duration.

Macko has two families, with a wife and an ex-wife. The wives contend he hasn't been supporting either of them. County Court Judge Harry M. Montgomery ordered him to pay his divorced wife, Mrs. Marie Macko, 28, of Braddock, \$30 for the support of Macko's 7-year-old son, Billy. Another order required him to pay Mrs. Virginia Macko, 22, of Arlington Heights, from whom he has been separated for six months, \$90 a month for her support and that of their two daughters.

The two orders were fixed after Judge Montgomery had figured out what allotments and dependency allowances would come to if Macko gets into the navy.

"If you're rejected," the judge told John, "you'll have to come back in and we'll hold another hearing. Maybe we can work something else out."

Bag Of Dye Saves Army-Navy Fliers

New S.O.S. Signal Stains Sea Yellow And Aids Rescue Work

NEW YORK.—(INS)—A small "tea-bag" of yellow dye has been added to the equipment of all Army-Navy fliers operating over the seven seas.

Curiously enough, this tiny bag of dye is the latest contribution of science to the life-saving side of war. As such it completes another phase in the contradictory and spiraling cycle of inventing instruments of destruction on the one hand, and on the other, of developing new methods and materials to protect men from these same infernal machines.

The tea-bag, devised as a result of greatly increased over-water aerial transport and combat and the loss of personnel from craft forced down upon the ocean, actually is a chemical SOS signal.

Dyes Sea Bright Yellow

Pilots on search patrols for survivors of planes forced down at sea

say that spotting a man in a life-jacket or small rubber boat from an altitude of 10,000 feet, while traveling at 200 miles an hour, used to be largely a matter of luck. Today the tea-bag of yellow dye, when dipped in the ocean, causes a brilliant, contrasting patch of color in the water and is readily visible for approximately 10 miles from an altitude of 10,000 feet.

The bag of dye was developed by the Calco chemical division of the American Cyanamid Co. It is waterproof and is released at will in the water by pulling a string, which rips off the waterproof outer cover and permits the dye to dissolve and disperse through the porous tea-bag into the water. The dye is highly soluble in water and is sufficient to make an intense color patch more than 25 feet in diameter and several feet deep.

Stains Water Deeply

The depth to which the dye penetrates the ocean was an important factor in its development. By being three-dimensional, the visibility of the dye patch was increased, and its depth below the surface protected it against the dissipating action of surface waves for a much longer period than would have been possible had it been a thin surface layer.

Now standard equipment, the dye has proved to be of great value, both in the location of survivors and in cutting down the flying time of aircraft and personnel carrying out the search.

The dye itself is a sodium salt of fluorescein, derived from coal-tar and known generally as uranine. A reddish-brown powder in the dry state, the dye gives off a yellow light when in salt water solution.

NEWPORT METHODIST SCHOOL IN CONTEST

The number of points for the Newport Methodist Sunday school, Wampum District, was through error omitted from the list published this week of county Sunday schools and their total points in the "victory" pre-Easter increase campaign being sponsored by the Lawrence County Sabbath School Association. The Newport Methodist is a small but very active Sunday school, and will undoubtedly have the highest percentage in Wampum district. They have accumulated a total of 61 points to date.

Plan To Observe 300th Anniversary Of William Penn

HARRISBURG, April 7.—(INS)—Preparations for the statewide observance October 24 of the 300th anniversary of the birth of William Penn are being worked out by a 12-member committee appointed by Gov. Edward Martin. The chief executive, who will serve as honorary chairman, said the committee will co-ordinate the activities of all historical and educational groups participating in the tercentenary observance.

Governor Martin, who proclaimed Tuesday, Oct. 24, as "William Penn Day," called upon schools and other public agencies and institutions, along with historical, patriotic and civic organizations, to conduct services in tribute to the memory of the Quaker founder of Pennsylvania.

"The tercentenary of the birth of the founder of Pennsylvania is a fitting time to pay more than the customary annual homage to the memory of one whose tolerance, wisdom, enlightenment and vision as a statesman of the common weal render him an outstanding figure among the builders of states," declared Governor Martin. "Penn's life and teachings provided many of the basic ideas of religious and political freedom and individual opportunity upon which our American liberty is founded."

Members of the committee planning the observance, in addition to the chief executive, include: Charles F. Jenkins, Philadelphia, president of the Pennsylvania Historical Society; chairman, Stanley R. Yarnall, Philadelphia, Friends' committee; secretary, Joseph R. Grunewald, Bristol, manufacturer; Ross P. Wright, Erie, president of the Pennsylvania Historical Commission; Insurance Commissioner Gregg L. Neel, Pittsburgh; Dr. William W. Comfort, Haverford, former president of Haverford college; H. E. Gillingham, Philadelphia, president of the Welcome society; Dr. Edward E. Wildman, Philadelphia, the John Bartram society; Superintendent of Public Instruction Francis P. Haas; Walter H. Annenberg, Philadelphia publisher, and A. Boyd Hamilton, Harrisburg, deputy executive secretary of the State Defense Council.

Continue Plans For Arabian Pipe Line, Ickes States

WASHINGTON, April 7.—(INS)—Secretary of the Interior Harold L. Ickes indicated today that planning will go ahead on the controversial Arabian pipeline project despite reported requests of senate investigators that a halt be called pending completion of the congressional probe.

Ickes spent an hour and one half in an off-the-record discussion yesterday with the committee headed by Sen. Maloney (D) Conn. To reports that Maloney had requested further planning on the project be stopped, Ickes replied:

"That was a confidential committee session."

The interior secretary said that "we haven't stopped planning yet." Ickes said that "actual work" on the line was still pretty far off; that the terminus of the line had not been determined; that a contract had not been signed with the oil companies to build it, and that no application had yet been made to WPB for pipe.

INSURANCE GROUP TO VISIT HERE

A caravan of officers of the Pittsburgh Life Underwriters Association will meet with the members of the New Castle branch at a luncheon meeting in The Castleton Thursday afternoon, April 13. From here they will go to Butler for a dinner meeting in the evening.

In the group will be Edward M. Aiken, president; Norbert H. Weldner and L. Kent Babcock, vice-presidents; H. S. Brownlee, treasurer, and Paul S. Meehling, chairman of the branch associations.

This meeting is for members only, it is stated.

The leopard seal is the Pacific coast variety of the common or harbor seal. It is much more often spotted than the Atlantic variety.

Garden Notes

Pumpkins, squashes and vegetable marrows can be grown among the corn rows of a Victory garden to save space if the garden area is limited.

Asparagus can be grown from

seed but by purchasing the roots for planting purposes from two to three years' time is saved. Asparagus roots which are one year, two years or even three years old can be obtained.

There are so many varieties of onions that it is possible to have early, mid-season and late crops of them in the victory garden. Remember, however, that early onions are not good keepers.

Each seed contains enough stored-up food to enable the seedling plant to grow until it can obtain its own nourishment from the soil. Fertilizing of seed flats is, therefore, unnecessary.

Lettuce is a hardy plant and can be planted outside as soon as the soil can be worked. The way to have tender lettuce is to grow it rapidly by feeding and watering the plants well.

Willkie's Name May Remain On Oregon Ballot

PORTLAND, Ore., April 7.—(INS)—Political observers saw a possibility today that Wendell Willkie might leave his name on the Oregon primary ballot despite his withdrawal from the presidential nomination campaign.

Observers pointed out that Willkie, who is unopposed for the state's 15 Republican delegates, could release them at a strategic moment during the G. O. P. convention. In addition, they pointed out, the presence of his name on the ballot would prevent a series of write-in campaigns which might bind the delegation to an undesirable candidate.

The cast is as follows: Jonas Pennington—Bill Williams; Connie Pennington—Mary Pritchard.

Kent Warren—Ed Klish; Alice Warren—Marjorie Fuhs; Loring Barber—David Henderson.

Dr. Lovejoy—Charles Fordyce; Susan Grey—Lois McIlraith; Emily—Betty Stevens.

Thomas Burt—Margaret McFlower; Flower Woman—Margaret McGary.

Red Stanford—Elmer Hilton.

CHANGE IS MADE IN MEDAL AWARDS

WASHINGTON, April 7.—The Air Medal awarded for meritorious achievement in aerial flight, will henceforth be given precedence over the Purple Heart, awarded for wounds received in action, the War Department announced.

This change brings the army's order of precedence into accord with that of the navy, marine corps and coast guard.

The army's awards now rank as follows:

The Medal of Honor, Distinguished Service Cross, Distinguished Service Medal, Legion of Merit, Silver Star, Distinguished Flying Cross, Soldier's Medal, Bronze Star Medal, Air Medal, Purple Heart and Good Conduct Medal.

Once a midget does not necessarily mean always a midget. A man or woman under four feet in height might start growing at any time of life, it is said.

REPORT GOEBBELS RULES BERLIN

LONDON, April 7.—(INS)—DNB, the Nazi propaganda agency, reported today that Adolf Hitler has appointed Propaganda Minister Dr. Paul Joseph Goebbels, "sole administrator" of bomb-soaked Berlin.

The report said that Goebbels will concentrate all "administrative power" in his person, particularly for the prosecution of the war.

"Provisions of law covering the constitution and administration of the Reich capital have been suspended," DNB added abruptly.

In his new capacity Goebbels will have the title of "town president," said the broadcast, which added that the Nazis functions "as Reichsleiter and Gauleiter of the party and as Reichsminister are not affected."

Opponents Of Badoglio Will Aid Government

NAPLES, April 7.—(INS)—Leaders of Italian political parties opposed to the Badoglio regime were under agreement today to collaborate in a "war government", to be formed upon the retirement of

King Victor Emmanuel and his succession by Crown Prince Umberto.

If possible, these leaders urged in a session yesterday at Sorrento, the present monarch should hand over his duties to Umberto before the allies reach Rome but there was no immediate indication that Victor Emmanuel was agreeable to this proposal.

It was reported, however, that the king, under persuasion by one of Italy's leading political figures, has agreed to step down in favor of his son at some not-too-distant date.

Draft New Laws To Hit Agitators

LONDON, April 7.—(INS)—The British government today was reported preparing legislation inflicting 10 year "penal servitude" sentences on agitators fomenting strikes within key industries.

Other drastic restrictions will be imposed upon laborers, seeking to halt work within those industries under these new defense regulations, informed observers said, already, they pointed out, the export of coal to neutral nations has been halted because of strikes within the nation's mines.

Yesterday, the cabinet was reported drafting its labor proposals for the first time. A few hours later, while Commons was hearing of the seriousness of the wave of labor stoppages, a back-to-work movement was reported under way.

Stock Market Outlook Discussed By Babson

By ROGER W. BABSON
Copyright—1944—Publishers Financial Bureau, Inc.

BABSON
The stock market is ruled partly by emotion. Recent activity has given investors new life; but most investors continue hesitant or seek special situations. Last summer they were optimistic. They looked for great new developments in housing, electronics and other industries. Then they became worried over taxes, national debt and reconversion. Now they worry about politics and the "invasion."

Savings Are Rising
More than 50,000,000 individuals and corporations own war bonds totalling in value about \$27,000,000,000. The longer the war lasts the more such funds will pile up. By December 31, 1944, this may rise to more than \$40,000,000,000. Money in circulation has increased rapidly for nearly four years. This is now about \$20,000,000,000. It includes all cash not represented by bank deposits. A great deal is hoarded currency.

Bank Deposits
Bank deposits now total nearly \$49,000,000,000. About 7 per cent or some \$3,400,000,000 belongs to individuals. A large part of this could find its way into the market. Recent talk of providing ex-service men with a bonus of \$3,500 to \$5,000 each is indicative of the cheapness with which money is regarded in some quarters. It seems as if more individuals will decide to exchange their dollars for stock market equities as inflation creeps upon us.

Personal and Other Debts
In the past two years, installment purchase obligations, home mortgages, doctors' bills and other personal debts have been nearly cut in half. This means indirect savings of some \$5,000,000,000. U. S. white citizens are becoming systematic savers and are well-fortified with liquid capital. While receiving wages, they are satisfied with low yields from government bonds. However, as living costs expand, people must either spend their savings or invest them in higher yielding securities. Hence, an ultimate mass return to the stock market—first, as a source of income and second, as a means of maintaining capital in the face of a decline in the value of dollars.

Dividends and Interest
High-grade industrial bonds now

yield an average of about 2.50 per cent. Most banks, aside from the co-operatives and mutuals, pay only 1 per cent to 2 per cent interest on income and protection. Investors are better off in war bonds. The average yield from high-grade stocks will run about 4.75 per cent. In individual instances, yields of 7 to 10 per cent in good companies now may be secured. Investors desiring such returns should act now. They may not be available long.

Market Uncertainties and Possibilities
Typical market action during recent months has been due to uncertainties over the holding of our war prosperity; to fear that the post-war era may not bring the expected demand for consumer goods; to discussions over the corporate and personal tax situation, and to confusion over domestic or foreign policies. This uncertainty may continue for some time. With corporations maintaining a profit level averaging only that of recent pre-war years, security prices may rise substantially. When the present psychological uncertainties are over, good-grade industrial stocks could easily sell 50 per cent higher than they are today! I give five additional reasons therefor:

1. A few "blue chip" stocks are high, but most stocks look cheap to me. For nearly ten years, everything except stocks and real estate has gone up. We are paying more today for labor, high-grade bonds, insurance and all sorts of commodities. Similarly, we will pay more for stocks.
2. The supply of stocks is drying up. Few new issues have come on the market in recent years. Hence, demand may exceed the supply.
3. We forget the great foreign market that has always existed for American stocks. When present blocked currencies are released, a good many Europeans will scramble for our stocks.
4. The deferred demand for consumer goods should keep our productive capacities busy and take up much slack occasioned by the lessening of war business. Domestic markets will be large. We should also enjoy a good export business. European countries, our Latin American neighbors and Africa have plenty of gold reserves. They will provide cash markets for our merchandise. Russia should continue a good customer.
5. Excess profits taxes will certainly be reduced if not eliminated. Corporate taxes are at their peak. In a few years the tax trend may be reversed. I further believe that business controls from now on will be handled intelligently. Something will also be done to ease the capital gains tax and to eliminate the double taxation of stockholders.

Conclusion
I do not fear inflation if we can continue industrial production on a large scale. I do not look for bank credit liquidation. I see no important decline in commodities. Most of our excess employed, numbering about 6,000,000 people, will go back to their homes, their schools, their farms, or into permanent retirement after the war. Hence, this wage-earning group will be off the payrolls. They will leave room for the regularly employed and for many demobilized service men. Now is the time for businessmen and investors to quit worrying and to have confidence in the months ahead!

Sees Danger In Government Plan On War Contracts

WASHINGTON, April 7.—(INS)—Dr. Melvin Copeland, chairman of the Massachusetts committee on post war readjustment, warned Thursday that the government's position on termination of war contracts for sub-contractors is "fraught with grave danger." Testifying before a Senate Military Affairs subcommittee, Dr. Copeland said that under existing law sub-contractors have no claim against the government. Prime contractors, he asserted, must assume the risk of settlement unless the claim has been passed by the contracting officer. "The delay and frustration which may result from this situation can cause considerable unemployment and even may jeopardize the continued existence of some of these smaller business concerns," he said. Dr. Copeland, who is director of research at the Harvard School of Business Administration, urged establishment of an overall demobilization agency free from outside interference. He recalled that during the past five years there have been "numerous examples" of overlapping authority between congressional-created and executive-created agencies.

COURT HOUSE CLOSED
Today is a vacation for the court house attaches. All offices are closed for the observance of Good Friday.

OPEN 'TIL FOUR SATURDAY
County Treasurer Frank W. Hill will keep his office open until four Saturday afternoon, in order to accommodate taxpayers who wish to redeem their properties before the treasurer's tax sale which will be held on April 29th. Taxpayers who wish to avoid additional costs have until the close of business on April 10th to redeem. After that the additional costs will be put on. The postage bill for sending out over 2,500 notices of sale was a

dandy. Each letter was sent out under registered mail, and registered mail these days is 23 cents per letter without a return.

CLOSING VERDICTS
Verdicts reported to the court at the close of civil term of court Wednesday afternoon include the following: Louis A. Haug awarded \$106.40 from John Wasilewski for fees as an appraiser after a fire. Mr. Haug contended he had been hired to appraise the property after the fire, had done so, but that Mr. Wasilewski had refused payment.

In the case of Ruger Ferrante, Joseph Nardis and Charles Padula against Edward Fee, the following verdicts were given: to Ruger Ferrante \$30, to Joseph Nardis \$450, and to Charles Padula \$25. The amounts represent damages awarded for damage and injuries resulting from the collision of the car in which the defendants were riding and the truck of the plaintiff.

Thomas P. Smathers was awarded \$122.30 damages from Opal Irene Miller for damage to his automobile when the car of the defendant hit the Smathers car, at the corner of Mill and Falls streets.

Another session of civil court is scheduled for Monday, April 24th, if there are sufficient cases to warrant holding it.

SALMON
Salmon is one of our best sources of nourishment. It supplies about the same amount and quality of nutriment as beef steak does. It is a little better on vitamins. It is good whether fresh or canned. Canned salmon is pretty good stuff to have on hand when unexpected company comes. Fresh salmon may be cooked in a lot of ways. Mostly it is fried. It may be broiled or baked or broiled. It is a pretty good idea for a cook to mix some brains with the cooking. The brains are more valuable for thinking than for eating.

ST. MARGARET TEAM SEEKS CHAMPIONSHIP

On Tuesday evening the final game in the second half of the Industrial Bowling league tournament will be played. Thus far the "Golden Age" team is leading in the second half, with St. Margaret society's team in second place.

St. Margaret's won the first half of the tournament, and should "Golden Age" win the second half, there will be a playoff later to decide the championship. St. Margaret's won the championship in 1943.

In a recent independent game with the Ecclesion club team, St. Margaret's were the winners. On April 16, the latter will take on the New Castle All-Stars team, among the players being George Shook, James "Tuffy" Thomas, Earl McCormick and Tony Fair.

'EASTER EGGS' HELP SELL MANY STAMPS

There was much excitement among the pupils of the Mahoning school on Thursday afternoon when the decorated "Easter Eggs" with war stamps attached, were distributed among the pupil customers.

The "hard boiled" eggs had been prettily dolled up by the teachers committee, with cute faces of "pin up" girls, dainty bonnets, and flaxen, auburn and dark "hair."

The eggs, with 50c and \$1.00 worth of war stamps attached, brought in approximately \$370 toward the school's stamps and bonds campaign. There were between 50 and 55 dozen eggs sold.

One of the teachers remarked that preparing the eggs was a lot of work, but the smiles of appreciation of the pupils was ample reward.

HOME FROM HOSPITAL

Private Charles W. Dungan of Camp Siebert, Ala., attached to the

chemical warfare service, is on 10 days furlough visiting with his wife, Mrs. Mildred Dungan, of First street, and his parents, Mr. and Mrs. Charles E. Dungan, of 419 Newell avenue.

CONNECTICUT WILL SUPPORT DEWEY

HARTFORD, Conn., April 7.—(INS)—There was a clear indication today that the entire Republican delegation of Connecticut would go to Gov. Thomas E. Dewey of New York at the national convention as GOP leaders, heretofore supporting Wendell Wilkie, shifted their support to the New Yorker.

Connecticut has been considered in the Wilkie column because of the close political and personal ties between the Hoosier and Gov. Raymond Baldwin and Kenneth Bradley of Hartford, state Republican chieftain.

No Recognition To North Africa French Leaders

WASHINGTON, April 7.—(INS)—President Roosevelt clearly indicated today that the American government has no intention at this time of recognizing the French National committee in North Africa as the French government of Metropolitan France.

Mr. Roosevelt, at a news conference, emphasized that the French people themselves, after they are liberated, must be given the full right of self-determination.

The president said he thought the situation was pretty well understood. Who should have the right to determining what the French people want other than the French people themselves, the president asked.

Armour Ideas Make the Most of Meat

Serve Star Ham for your Easter Dinner

Even with rationing, you can enjoy America's most delicious Ham for a real American meal! Here's how:

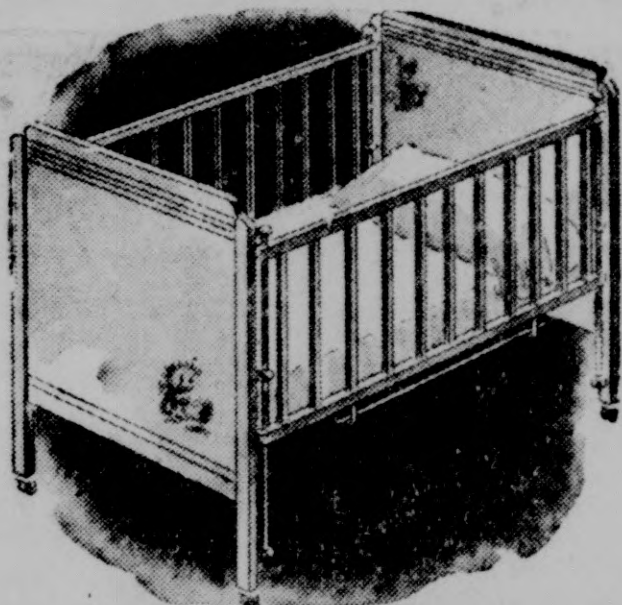

To serve four, ask your meat man for a 1½ inch slice of Armour's Star Ham—the tenderest, finest flavored ham ever! Sugar-cured... mellowed over fragrant hickory and hardwood fires... wonderfully delicious! Score the fat edge of the ham so it will lie flat and place in casserole. Cover and bake 30 minutes in 325° F. oven. Uncover; add ¼ cup brown sugar and continue baking uncovered another 40 to 45 minutes or until tender. Serve with peanut covered sweet potato balls, made as follows:

Mash 1½ cups cooked sweet potatoes. Blend with ¼ tsp. salt, pepper to taste, and shape into round balls. One and one-half cups should make 8 balls. Chop enough salted peanuts to make ½ to ¾ cup. Roll sweet potato balls in chopped peanuts and bake in 325° F. oven for 20 to 30 minutes. The flavor is new and intriguing... and the food is especially nutritious.

Save this recipe from the Armour Kitchens and follow it for your Easter Dinner!

William C. Ley Jr. Tendered Farewell

William C. Ley, Jr., a resident of 242 West Moody avenue, industrial application inspector of the Knights Life Insurance company, was tendered a farewell dinner-party on Thursday evening at The Castleton, with his fellow co-workers and their wives in attendance.

Mr. Ley has been with the local office for the past four years, and is now being transferred to Pottsville, Pa., where he will take up new duties on Monday, April 10.

Toastmaster for the occasion was

George S. Salomon, and after making brief comments, called upon the following for remarks. Anthony N. Carbon, Leo Garity, Edward Emery and Robert Clements.

The honored guest was presented with a farewell gift from the company's employees, and the presentation was made by William H. Drake, after which the guest graciously responded.

RESUME PRODUCTION
TOLEDO, O., April 7.—(INS)—Production of war plane propellers resumed today at the American Propeller company plant in Toledo following withdrawal of a picket line thrown about the plant a week ago. The picket line, established by AFL workers, disbanded upon receipt of a directive from the Regional War Labor Board in Cleveland shortly before CIO workers were to attempt to enter the plant. Six picketers who led the strike and were dismissed with CIO approval will not be rehired, a company spokesman said.

Probe Reported Firing On Planes Over Salvador

MEXICO CITY, April 7.—(INS)—Pan American Airways officials today were reported pushing an investigation to determine whether the firm's planes had been fired on while en route to Guatemala during the recent short-lived "abortive" military coup with El Salvador.

Pres. Maximilian Hernandez Martinez, of Salvador, issued a statement announcing that the coup had been "small," while Mexican sources in contact with El Salvador said the movement had been "unsuccessful."

Festival Service At Temple Israel

Archbishop Sees Renaissance Of Russian Religion

NEW YORK, April 7.—(INS)—The Archbishop of York, the Most Rev. Cyril Forster Garbett, declared today that the agonies of war have brought about a renaissance of religion in Russia which spring from the people themselves and their common desire for religion.

The archbishop arrived in this country last evening from England to make a good-will tour as a representative of the Anglican church. His trip is sponsored by Dr. Henry St. George Tucker, presiding bishop of the Protestant Episcopal church of the United States. The English primate discussed his recent trip to Russia during a news conference.

"In all the distress and agonies of war," he said, "the people of Russia are feeling the need of religion and turning toward it. There is a very great cycle of Christianity in Russia."

The Communist party in Russia is mainly against Christianity. The revival is coming from the people themselves.

He expressed belief that the Nazi treatment of religion was one of the factors contributing to its rebirth in the Soviet Union.

During his stay of three weeks in this country—his first visit to the United States—the English churchman will participate in a series of conferences with Episcopal leaders devoted largely to relationships between the church of England and the Episcopal church particularly in missionary areas, and in the general topic of church rehabilitation after the war.

His itinerary includes a lengthy stay in Washington, brief one-day stopovers in Philadelphia and New Haven, Conn., and a later trip to Chicago.

State President At Medical Meeting

Dr. A. S. Kech Addresses Medical Society At Dinner-Meeting Thursday Evening

Thursday evening, a large group from the Lawrence County Medical society, enjoyed a dinner-meeting with Dr. Augustus S. Kech, president of the Medical society of the state of Pennsylvania, at The Castleton.

An interesting meeting followed at 9 o'clock, in the coral room, and guests attending from the Butler County Medical society as representatives were: Dr. Robert Lucas, Dr. Gordon Jones, Dr. Huba and Dr. Armstrong.

Dr. E. F. Henderson of the program committee, introduced the principal speaker, Dr. A. S. Kech, state president, who discussed "Challenge To Every Doctor." The discussion of this topic centered around the problems which have arisen in the private practice of medicine, due to the attempts of social legislation to put medicine under state control. Dr. Kech discussed the most satisfactory ways to combat the situation. Various medical insurance plans were discussed and explained.

Together with Dr. Kech was Dr. J. L. Whitehill, of Rochester, Pa., the district commissioner of the State Medical society. Dr. Whitehill was a member of the committee which originally formulated the plan of the Pennsylvania Medical Service Association Plan. He gave the history of this movement and explained the status in which it stands today.

Announcement was made that two sessions will be held in May, the first on May 6, at The Castleton, for the regulation meeting, and the scientific program is scheduled for May 11, at which time Dr. J. A. Toomey, of Cleveland, O., whose subject will be "The Differential Diagnosis of Meningitis."

DRUG PRODUCTION IMPAIRED

DETROIT, April 7.—(INS)—Production of vital sulfa drugs, typhus vaccine and blood plasma was impaired today as 1,500 workers remained on strike for the second day at the Parke, Davis & Co.

The dispute allegedly started over seniority in the capsule department. Earlier this week, women in the capsule department staged a sit-down strike which was settled. Yesterday another strike started in the same department and spread to other departments of the company.

The strikers are members of local 176, Gas, Coke and Chemical Workers, CIO.

New Atrocities Blamed On Nazis

NEW YORK, April 7.—(INS)—Another Nazi atrocity in which the German army burned to death 603 men, women and children in Malin, in pre-war Poland, was made public today by the Soviet Information bureau.

In a radio transmission of the atrocity story, as heard by FCC monitors, the Germans were reported to have locked the victims in the town's wooden school, church

and various sheds. The structures were drenched with gasoline and ignited.

"German sentries were posted outside the doors and windows and shot with tommy-guns anyone who attempted to escape from the fire," added the broadcast which said 205 of the victims were "young children." Some 255 dwellings and other buildings also were razed.

THIRD PARTY IS HELD UNLIKELY

G.O.P. Leaders Not Inclined To Believe Willkie Will Attempt Such A Move

By WILLIAM S. NEAL

(U.S. Staff Correspondent)

WASHINGTON, April 7.—Congressional Republicans generally predicted today that Wendell L. Willkie will remain in the GOP organization despite frequent reports that he might launch a third party.

Willkie's most outspoken opponents declared that a bolt would have little effect, but many expressed hope he will remain in the party and fight the New Deal.

Third Party Unlikely

"I don't think Willkie will set up a third party," said Sen. Willis (R) Ind. "All he could do would be to oppose the Republican party. That would be so obviously an act of reprisal that he could carry no weight."

"I don't see how he can hurt the party a great deal, but I think he can do it a great deal of good by supporting the Republican principles in which he believes and saying there should be a change in administration for the good of the country. I believe he will."

Sen. Wherry, Neb. Republican senate whip, voiced hope that Willkie will not bolt.

Stay In Party

"My hope is that Willkie will stay in the Republican party and continue to lead that element which I describe as progressive," said Wherry. "The party is big enough for all, and we have got to have unity in a tough campaign."

Wherry predicted that Willkie, despite his withdrawal from the GOP presidential race, will be a power in a Republican national convention.

Sen. Nye (R) N. D., said he doesn't think a third party move by Willkie is in prospect.

"I hope Willkie stays in the Republican party and battles for Republican success," added Nye. "Should he choose to launch a third party, I cannot see but that it would be nearly as injurious to the Democrats as Republicans because Willkie appeals to an element having to choose between Roosevelt and Dewey which would, let us say, be most inclined to go to Roosevelt."

Bricker Plans To Speed Up Drive For Nomination

Will Intensify Campaign In Wake Of Withdrawal By Wendell Willkie

INDIANAPOLIS, April 7.—(INS)—Gov. John W. Bricker of Ohio made plans today to step up the intensity of his drive for the Republican presidential nomination in the wake of Wendell L. Willkie's withdrawal from the fight.

Addressing the Indianapolis Press Club last night, the Ohio chief executive promised to speak out frankly on all current issues.

"I shall intensify my campaign for delegates to the Republican national convention," he told his non-partisan group of listeners. "I shall redouble my efforts to fully inform the nation of my position on all of the important questions confronting the people of the country today."

Governor Bricker, who was to carry his campaign into Chicago with two addresses today, predicted the G.O.P. national convention will prove a deliberative body which will select a man who represents "the thinking of the Republicans of the entire country and the man who can defeat in November the New Deal philosophy of government."

Approving with reservations United States participation in a world court, Governor Bricker said: "This suggestion is based upon the maintaining at all times of the integrity of our own governmental structure and the respect for the sovereignty, not only of our nation, but of the other nations of the world as sovereign nations. We do not want imposed on us any centralized world authority."

Grand Opera Tour To Argentina Has Been Eliminated

Sudden Change In Plans Announced; Reason Appears To Be Political

By LEON PEARSON

(U.S. Staff Correspondent)

WASHINGTON, April 7.—Another discordant note—this one in the field of music—was struck today in the relations between the United States and Argentina.

Plans for a Latin American concert tour by members of the Metropolitan Opera Company were suddenly altered to eliminate Argentina. The reason appeared to be largely political.

The groups of artists included some of the best known operatic stars in the United States, together with Arthur Rodzinski, director of the New York Philharmonic Orchestra. They had been engaged to appear at the famous Teatro Colon in Buenos Aires. Unexpectedly, and without explanation, the New York agents for the tour received instructions to cancel the negotiations.

The group who had expected to make the trip to Argentina included Lauritz Melchior, Bidu Sayago, Charles J. Van Meter, Ramon, Raoul Jobin, Zinka Milanov, Leonard Warren, Helen Traubel, Bruna Castagna, and Norman Cordon.

The Latin American tour was arranged by Andre Mertens, director of the South American and Mexican division of Columbia Concert, Inc., New York City. It included, in addition to Buenos Aires, Rio de Janeiro and Sao Paulo, Brazil, and Mexico City. Arthur Rodzinski, director of the Philharmonic, was scheduled to conduct a total of 12 concerts, six of them in Buenos Aires.

It is understood the artists will fill their engagements in Brazil and Mexico.

Reveals Aetna Has Big Orders

YOUNGSTOWN, April 7.—Large steel plant equipment orders requiring employment of about 350 additional workers are being rushed by the Aetna-Standard Engineering Co., President E. E. Swartzelwer disclosed today.

The orders are known to be valued at many millions of dollars, but exact amounts involved were not disclosed.

The orders include an electric pipe mill for Russia; a seamless tube mill for the Pittsburgh Steel Co., and a sizing mill for the National Tube Co., as well as about a half dozen piercing mills for other domestic steel producers.

The Russian seamless mill will be used to produce pipe to further develop Russian oil fields. The Russian order is rapidly nearing completion but the other orders are not so far along.

Sloan Doesn't See End Of War In Fall

BOSTON, April 7.—(INS)—Alfred J. Sloan Jr., chairman of General Motors, today predicted that there would be some general unemployment after the war and then a general resumption of full-scale industrial activity lasting four or five years.

Sloan, speaking before the Boston Chamber of Commerce yesterday, said he believes the end of the war with Germany is "further off than next November."

To avoid confusion with the boat-swin's whistle, whistling by seamen aboard a naval vessel is forbidden.

GET RIGHT START AND AVOID FOOT TROUBLES

Many foot troubles could be prevented if we understood how the foot works and select shoes carefully.

The 26 bones that make up the foot of the adult are joined together by ligaments and muscles hold these bones in such a way as to form arches, the metatarsals and the long arch on the inside of the foot. Whenever the muscles do not hold the bones so that these arches are formed, foot troubles result. It sometimes is necessary to develop special foot exercises to develop these muscles.

The infant's foot does not have as many bones as the adult foot. Instead it has cartilage where bones will form later. As the child grows, the cartilages are gradually replaced by bone. The arches are formed in the foot of the baby but sometimes they are not evident because of the fat pads on the bottom of the foot. As the child grows, these pads disappear. Mothers should remember this and not fear that their babies have flat feet.

Unless physically deformed, babies have perfect feet when born, says Miss Marguerite Little, extension

child care specialist of the Pennsylvania State college. She points out that because of the flexible nature of the feet, utmost care should be taken to see that they are not forced into wrong positions as the child grows. Short booties, stockings, or too heavy bedding may prove harmful to a baby's feet. Worst of all enemies, however, are ill fitting shoes.

When the baby's feet are free from clothing, you can see all the exercises the baby is putting his feet through. These serve to strengthen the muscles for use when he starts walking. When walking, the toes should not point outward but straight ahead or slightly inward. Walking develops the arches and makes for good carriage.

CORN BORERS MENACE CORN CROP

Last year the European corn borer increased to an alarming extent throughout Pennsylvania. Damage to corn fields in Lawrence county was limited but also serious enough in some fields to cause a marked reduction in yield.

Unless control measures are started, the borers may continue to increase until it will reduce corn yields considerably. Borers live over winter in stocks, stubble, cobs, thick stemmed weeds and similar material. They emerge in the spring and soon develop into moths which lay eggs to start a new brood. If all corn stocks and stubbles are plowed under before May 1, very few of the corn borers will survive and the new brood will be small.

It is important that every farmer take part in the clean-up campaign as the moths can fly for considerable distances. It is not possible to totally destroy the European corn borer, but the possibility of immigrating can be reduced to a great extent.

POULTRY DISEASE PREVENTION IS EASIER THAN THE CURE

Each year Lawrence county poultry raisers suffer hundreds of dollars of loss because of poultry disease. It is easier to prevent disease than it is to cure them.

Proper sanitation and brooding conditions will help produce healthy pullets to go in the laying house. If the brooder is kept at the most satisfactory temperature, clean feed and water provided and the litter is kept dry, most of the trouble

from diseases such as coccidiosis will be eliminated. It is important that young growing stock be kept away from the older poultry on the farm. Many of the older birds may carry diseases which they are able to resist but which would cause loss in the young flock. Amateur diagnosis of poultry troubles often lead to the wrong treatments. During the past several years veterinarians have studied the problems of poultry diseases just as they have the diseases of larger animals. In case of an outbreak of trouble in the poultry flocks, poultry raisers should consult their veterinarian concerning diagnosis and treatment.

FERTILIZER NEEDED TO GROW VEGETABLE CROPS

Good gardens can be made better if fertilizer is used in proper amounts to feed the vegetables.

This year the home garden fertilizer is a 5-10-5, which contains 5 per cent nitrogen, 10 per cent phosphoric acid and 5 per cent potash. Where no manure is used, an application of 25 to 35 pounds of the 5-10-5 fertilizer to 1,000 square feet of garden should be adequate. This fertilizer may be plowed or spaded under, but it is generally spread after the ground is turned or harrowed or raked into the soil. The fertilizer should be mixed thoroughly with the soil and not allowed to come in contact with the seed.

Extension vegetable specialists of the Pennsylvania State college say that good results may be obtained with applications of fertilizer along the row or alongside the plants.

which are set out. A small furrow about two inches deep and two inches to the side of the seed is a good position for the fertilizer and about two pounds of fertilizer to 100 feet of row as a good application. This application will hasten early growth of the plants.

MILK RATION IN FRANCE REDUCED

BERNE, Switzerland—(INS)—Drastic reduction of the milk ration has gone into effect in France and one immediate consequence must be a rise in already high infant mortality rates. There is less milk because there are fewer cows; fewer cows because there is practically no fodder apart from grass and hay. Another factor is the requisition of cattle by German authorities and the barter of milk for manufactured goods.

RARE GIFT MADE TO OXFORD CREW

LONDON—(INS)—The Oxford University crew received a huge parcel from a Yorkshire admirer, who expressed the hope his gift would help win the race against Cambridge. When the wrappings were removed that rarity of rarities in Britain—an orange—was found. The fruit was split nine ways for the eight oarsmen and the coxswain.

The cat is said to possess a digestive system which permits it to consume enough food to resist the possibility of famine. It can go a week without food.

AMBULANCE PLANE SAVES MANY LIVES

CHICAGO—(INS)—The story of the "Howard-Nightingale" ambulance plane, which began with the whim of a movie actor and resulted in a great advance in mercy flying, was told recently by the Howard Aircraft Corporation.

The ambulance ship is powerful, compact as comfortable as a transport plane, and small enough to travel where larger hospital craft can't. It has a maximum speed of 180 miles per hour and carries a pilot, co-pilot and nurse in addition to two patients. The Howard Aircraft people used to produce the planes for France, and last summer were

contracted by the United States Navy to resume full-scale production.

Beery Given Credit

Wallace Beery is credited by the company with being indirectly responsible for the development of the newest type of ambulance ship. Beery, a veteran flying fan and deer hunter, visited the Howard plant five years ago and complained he needed a larger door in his plane. He wanted an opening cut big enough in the side to pass a deer through. However, engineering changes required a new ship.

The result was a plane with a wide cargo door and much more interior space. Beery, recalling many hunting trips in which he had to sleep on the frozen ground in a blanket then asked that the plane be fitted with a swinging cot.

The cot idea was abandoned in favor of a hand-built folding bed. Ultimately, as manufacturers exchanged ideas, the bed idea was ex-

tended into plans for stretchers in planes.

Stretcher Fits Body

The final result was a ship specially equipped to carry men suffering from serious fractures and mutilations which cannot be treated adequately along battle lines.

The Howard-Nightingale has two Stokes stretchers—shallow wire litters formed to the shape of a six-foot man—invented by Adm. Charles Francis Stokes, former surgeon general of the navy.

The litters are suspended one above the other on one side of the plane and are locked to stanchions. To protect a patient from further injury, each stretcher is lined with a blanket and pillow and has broad canvas straps and shaped hollows under the patient's head, shoulders and legs to prevent him from slipping.

The stretcher is hauled from the ground by a pulley suspended from the cabin ceiling. The Howard-Nightingale was

christened last October by Sister Elizabeth Kenny after the famous nurse.

ALUMINUM PAINT

NOW BEING SAVED

SAN FRANCISCO—(INS)—Black paint must do war duty on the San Francisco-Oakland Bay bridge until aluminum conservation measures are eased, officials have announced. The surface area of the structure, equivalent to 345 acres and requires more than 75,000,000 gallons of paint. It takes 38 painters on a 40-hour week nearly five years to complete the job. Aluminum paint alone was used before the war, but black paint substitutes now on all surfaces not exposed to public view.

Bankside is the south bank of the Thames river, between Blackfriars and Waterloo bridges, London. The famous Globe theater stood there in Shakespeare's time.

Alien Hopes That Heroism Will Get Citizenship

Mexican Serving With Yanks In Italy Captures Fifteen Germans In Combat

By LARRY NEWMAN (U. S. Staff Correspondent)

AT THE FIFTH ARMY FRONT IN ITALY, April 7.—An alien from Mexico who captured 15 Germans while battling with American units of the Fifth Army against the Nazis said today that he hoped to obtain United States citizenship as a reward for his feat.

The daring soldier who dashed into a house along the battlefield which was filled with armed Nazis and forced the enemy to surrender while Yank troops outside covered him was Pvt. John Flores of Los Angeles, Cal.

Flores, who has been fighting for U. S. citizenship papers for more than five years, was enthusiastic over the prospect that his heroism might start the wheels moving to make him an American in name as well as in spirit.

No Legal Entry
A volunteer for overseas service, Flores was brought from Mexico to the United States when he was six years old but had no legal entry papers. His father and grandfather both are citizens but because he now is over 18 and must furnish his own proof he is unable to do so because of the lack of entry papers and absence of birth records.

Flores was interviewed at an observation post 200 yards from the German lines. He was more interested in telling the story of his failure to gain citizenship than of the feat of surprising 15 Germans and herding them out of the house at bayonet point to where three patrol mates waited outside behind the walls.

Flores credited his loud yelling which he described as "damned hard and loud cussin'" with scaring the Germans, even the officer lieutenant who fell over backwards out of his chair when Flores rushed toward the house screaming like an Indian.

"I didn't realize so many guys were in the house or I wouldn't have gone in," said Flores. "I shouted like hell and labbed my bayonet at them. The lieutenant fell to the floor backwards, screaming 'nix nix nix'." Later it developed that the officer spoke English.

Flores said he saw guns and pistols everywhere in the room. But he knew his friends were outside covering him and thought: "If the Germans start trouble there is going to be a helluva battle through me."

One German made a move to pick up his shoes and Flores grabbed him. "I shook the hell outta him and told them that the next one who moved would get a bayonet in his guts," Flores said.

"I was scared to death but they didn't know it."

NO BRONX CHEER

IS HEARD HERE

NEW YORK.—(INS)—The oft-maligned Bronx was the first of New York City's five boroughs to go over the top in the Fourth War Loan with its quota of individual purchases. The Bronx won the informal contest when it pushed out Brooklyn by 16.7 per cent with its total percentage of 100.4.

Rep. Martin's view concurred with one held earlier by Rep. Costello (D. Calif., who later fell in line with recommendations made by war agency officials before his subcommittee on draft deferments. They generally conceded that the 4-F draft might be achieved administratively, but that it would be preferable to have congressional support in the form of legislation.

Japan Admits Marshall Raids

NEW YORK, April 7.—(INS)—The Tokyo radio today acknowledged that 42 American planes raided Wotje atoll in the Marshall islands on Tuesday, but claimed that two of the U. S. craft were shot down and several hits scored on a "large-type enemy destroyer" which bombarded the island.

The Jap broadcast, heard by U. S. Foreign Broadcast Intelligence Service monitors, said Wotje suffered no damages and claimed the destroyer retreated "listing heavily". In Washington yesterday, the U. S. Navy announced that Jap shore batteries inflicted minor damage on an American destroyer when the ship, returning the fire, moved in and rescued a fighter pilot downed during Tuesday's raid.

Senators Oppose 4-F Draft Plans

Denounce Idea Of Shifting Workers On Jobs In Labor Battalion Project

By FRANK B. ALLEN (U. S. Staff Correspondent)

WASHINGTON, April 7.—The proposal to place 4-Fs in labor battalions was denounced today by two senators, with indications that a bitter senate fight would be made against the plan if approved by the house.

Sen. Danaher (R. Conn.) declared he would oppose any measure to "put 4-Fs on the garbage detail," while Sen. Willis (R. Ind.) asserted that "the people are not in the mood for much more autocratic power for the administration."

In the house, however, Rep. Martin (R. Iowa, house military affairs committee member, called on the armed forces and selective service to put a 4-F manpower draft into effect immediately, without awaiting legislation. Martin declared additional laws are unnecessary.

Willis, predicting senate opposition to a labor draft, thought there would be support for a program of putting 4-Fs in limited military service in army camps to relieve others for combat duty and relieve the need of taking men from industry.

Danaher declared that "any bill which would take 4-Fs as a class and conscript them into labor battalions or for menial service is unsound in principle."

He added that "if there were a general conscription of all manpower we would not be faced with the lack of logic involved in this proposal."

"I don't believe," he declared "that there should be a general draft of all citizens who would thereafter be placed in employment and work for the private gain of private owners of industry."

"And if a man is to be ordered to leave his present occupation to enter essential industry he should be protected in his right later to go back to his old job with his seniority rights."

He asserted that "condemning 4-Fs to the garbage detail is not the answer" to the manpower problem.

Rep. Martin's view concurred with one held earlier by Rep. Costello (D. Calif., who later fell in line with recommendations made by war agency officials before his subcommittee on draft deferments. They generally conceded that the 4-F draft might be achieved administratively, but that it would be preferable to have congressional support in the form of legislation.

WILL FOR ESTATE HAS 53 CLAUSES
PHILADELPHIA, April 7.—(INS)—President Judge Lewis H. Van Dusen, of Philadelphia orphan's court, had before him today 53 clauses in a will disposing of the \$231,371 estate of Mrs. Florence Walker Hall.

Two codicils contained 12 additional sections.
The testatrix, formerly of Pittsburgh and New York, died October 13, 1942. The bequests included a legacy of \$1,000 to the Actors' Fund of America, New York, "in memory of my father, who was professionally known as Harry Williams, of Pittsburgh."

Germany's Hold On Balkans May Be Jeopardized
WASHINGTON, April 17.—(INS)—President Roosevelt today praised Russia's drive into Rumania and asserted that it's decisive potentialities are such that it might well jeopardize Germany's entire hold on the Balkans.
Mr. Roosevelt said that as far as he could determine the Soviet army's offensive in the Black Sea area and Southern Ukraine was going extremely well and that the Russians have the choice of expanding the drive in three directions—to the west

Montreal Wins, 3-1; Tilt Riotous

Chicago Fans Delay Stanley Cup Game, Shower Ice With Papers, Coins

CHICAGO, April 7.—(INS)—Championship hopes of the Chicago Black Hawks dwindled today following the second straight defeat handed them by the Montreal Canadiens in the final series of the Stanley cup hockey playoffs.

The Canadiens won 3 to 1 last night before a crowd of 16,033 at the Chicago stadium in a riotous game which was held up for 20 minutes as spectators threw papers, score cards, playing cards and coins on the ice.

Fans Incensed

They were incensed over refusal of officials to call a holding penalty on the Canadiens just as Maurice Richard, particular star of the evening and the series, was completing his third goal for a "hat trick."

Starring honors with Richard were shared by the Canadiens' goalie, Bill Durnan, who stopped everything coming his way until the last second when young Johnny Harms of the Hawks cuffed in the puck on a pass from George Allen to save a shutout.

The teams play again at the stadium Sunday night then return to Montreal where the remainder of the best four out of seven games will be played.

Ex-Bucknell Coach Foresees Postwar Boom In Football

Sitarsky Believes Boys Returning To School Will 'Take Keen Interest'

Pvt. John J. Sitarsky, former football coach at Bucknell university and now at Fort Eustis, Va., forecasts a football boom as a result of the war.

Sitarsky, reports the Fort Eustis Sky Watch, believes "many men now in the armed forces will want to go to school after the war. They'll take with them a keen interest in sports. Another factor is that many parents who previously were unable to send children to school now are earning money which will enable them to send their boys to college."

Boom Likened To Gold Rush; Circus Halts Biff Game Until May 26 When Lee Savold And Joe Baksi Present Encore; Despite Shortage Of Performers, Plenty Of Cards In Store For Money-Loaded New Yorkers And Nearby Customers.

By LAWTON CARVER
International News Service Sports Editor

NEW YORK, April 7.—One of the great gold rushes of these times has come to a temporary end and there will be no fights at Madison Square Garden tonight, nor any other night until May 26 when Lee Savold and George Baksi will play an encore of their recent encounter. I bet if you could read the mind of Mike Jacobs and the managers and fighters and others who toy with the flotsam and jetsam that washes in and out along Uncle Mike's own beach you would find that they unanimously favor a law abolishing the circus.

The circus, coming into The Garden for its annual lengthy stand, is the cause of it all.

"Well," as one beachcomber sighed, "we at least get some real clowns now—instead of the ones with gloves on."

For 11 fights since the first of the year a total of \$767,000 in U. S. currency has gone streaming through The Garden wickets. Perhaps before the year is out an all-time record for gate receipts will be set at the big arena, especially if Jacobs decides to hold all shows there instead of moving to one of the ball parks for some of his bigger summer attractions. They might set a record in spite of that, for there always were outdoor shows in the past, and never such a rush to The Garden as they are getting now.

Beau Jack helped considerably in building that money total inasmuch as he appeared in five of those fights and the farther he went became increasingly popular. But even if he goes into the army soon as expected there are enough cards around to keep the crowds coming. All the customers ask is that it be a fight. Quality is secondary.

Meantime, Beau Jack's Augusta, Ga., draft board has revealed that he is headed for the service as soon as his number comes up—provided he is physically O. K.—and that seems to end reports that for some reason or other he might be held out awhile. He figures to be gone by mid-summer.

But Willie Pep, recognized around here as world featherweight champion, has been given a medical discharge and is back in circulation; Savold and Baksi are around; Sammy Angott will fight as a welter until he is called; Juan Zurita, the National Boxing association champion, will be all right as soon as he goes out and wins over a couple of stiffies to erase the blemish

Buffalo Pucksters Slap Barons, 12-2

Clevelanders Two Down In American Loop Hockey Series; Play Again Saturday

CLEVELAND, April 7.—(INS)—Two down in their playoff series for the American League hockey championship, the Cleveland Barons meet the Buffalo Bisons at the arena in Cleveland tomorrow night with the task of making up on them by the 12-2 walloping hung on them by the Bisons in Buffalo last night.

The Bisons have won both of the first two games played in the seven game Calder cup series.

The score was an all-time record in American League ice playoff history with Buffalo sweeping in seven goals in the final period. Oddly, no player scored more than two goals in the all-out offensive.

A crowd of 10,156 was on hand for the game.

Jockey McDermott Now Rides Hypos

Crashes Finish Line First Over 300 Times During Turf Career

CAMP CAMPBELL, Ky., April 7.—(INS)—Riding more than 300 winners in his six-year career as a jockey on some of the nation's fastest tracks, Staff Sgt. Patrick McDermott is now riding hard in army job as medical supply sergeant of the 20th armored division at Camp Campbell, Ky.

Pat McDermott, as he is familiarly known to thousands of race track fans, began riding as an exercise boy for the Jeffords stables at Belmont Park in 1935. He rode his first big race at Belmont in 1936 and for three years thereafter rode at Empire City, Pimlico, Md.; Hialeah Park, Fla.; Santa Anita, Cal., and other big tracks.

He rode Jack Bart—the day it broke the track record at Chaulmplain Handicap at Saratoga Springs, N. Y., in 1938.

State Okays Trolling From Motor Boats

HARRISBURG, April 7.—(INS)—Trolling from motor boats will be permitted on all rivers of the state and on Lake Wallenpaupack in the Wayne-Pike county area, the State Fish Commission announced today. The commission deferred action on trolling in other waters.

TRIBE IN LAFAYETTE
LAFAYETTE, Ind., April 7.—(INS)—Cleveland's Indians were back in Lafayette today to resume training after defeating the Pittsburgh Pirates, 6-3, in an exhibition game at Muncie, Ind., yesterday. The Tribe meets Indianapolis at Lafayette Saturday and again on Sunday.

BUCCOS DEFEATED BY INDIANS, 6-3

MUNCIE, Ind., April 7.—(INS)—Frankie Frisch today will take his Buccos to Terre Haute for an exhibition game against the Columbus Redbirds.

Cuccurullo and Wise will pitch for the Pirates, who will then go to Evansville tonight to play the Tigers Saturday and Sunday. The Corsairs lost to the Cleveland Indians, 6-3, in the first game of the year played in the Pirates' training camp.

Seven Hundred Licenses Issued

Trout Season Opens 5 A. M. April 15; List Of Trout Streams

Approximately 700 fishing licenses have been issued in Lawrence county so far this season but it is anticipated that before April 15, arrives when trout season arrives, there will be double or triple this number. All streams formerly stocked with trout have been stocked this year and in addition trout have been stocked in the Slippery Rock creek for experimental purposes.

Four hundred licenses have been sold by Alderman O. H. P. Green, veteran fisherman and according to a report from County Treasurer Earl Wimer's office, three hundred licenses have been sold there.

Time Is Important
According to the state fishing law, fishing will be closed between 5 p. m. April 14 until 5 a. m. April 15. Trout must be six inches in length and no more than 10 on any one day may be caught and kept.

Clinton B. White, fish professor for this district, has completed stocking and for the benefit of trout fishermen, today provided a list of the streams stocked, the kind of stocked and how the front streams may be reached as follows:

Lawrence County

Taylor Run: Browns; reached from route 108 East of Harrisburg, stocked from mouth upstream for three miles.

Big Run: Browns and Rainbows; reached from route 422 East of New Castle, stocked from bridge on route 422 upstream four miles.

Hickory Creek: Browns and Rainbows; reached from route 108 West of New Castle, stocked from Covered Bridge upstream to near Bessemer.

Deer Creek: Browns and Rainbows; reached from route 278, stocked from mouth upstream to above Rudzik Farm.

Little Neshannock Creek: Browns and Rainbows; reached from New Wilmington, stocked from mouth upstream to Mercer County line.

Slippery Rock Creek: Browns; reached from route 19, stocked from Bridge on route 19 near Rock Springs Park upstream to Elliotts Mills.

Mercer County
Lackawanna Creek: Brown and Rainbow trout; reached from Sharon, Mercer, route 62, stocked from route 62 to mouth of stream.

West branch Little Neshannock: Brown and Rainbow trout; reached from New Wilmington on black top road leading to Bethel, stocked from Bethel downstream to mouth.

East branch Little Neshannock: Brown and Rainbow trout; reached on route 158, one mile North of New Wilmington, stocked from Pine Swamp to mouth.

Pardoe Run: Browns; reached from route 58, west of Grove City three miles, stocked from black top road downstream for three miles.

North Branch Wolf Creek: reached from route 78, three miles North of Grove City.

North Branch Browns; from mouth upstream a distance of four miles.

Middle branch Wolf Creek: reached from route 78, three miles North of Grove City, Brown and Rainbows; stocked from vicinity of Centertown downstream to mouth.

East branch Wolf Creek: Browns and Rainbows; reached from route 78, three miles north of Grove City, stocked from the Patterson School House downstream to mouth.

Mill Creek: reached from route 78 near New Lebanon, Browns; stocked from route 78 downstream to Venango County line.

Deer Creek: Browns and Rainbows; reached from route 78, stocked from bridge on route 78 downstream to mouth.

Pine Run: Browns; reached from route 58 going east from Mercer; stocked from Baker Bridge downstream to mouth.

Crooked Creek: reached from route 18 near Osgood, Browns; stocked from Osgood, north to Crawford County line.

Michigan's Physical Education Head Dies

ANN ARBOR, Mich., April 7.—(INS)—Abram A. Jimmy, James, 49, associate supervisor of physical education at the University of Michigan, was dead today from injuries sustained in an auto accident last Friday, James succumbed yesterday.

James had been associated with the university for 16 years and received his masters degree in physical education here in 1926. Services will be held at 3 p. m. tomorrow in the First Congregational church.

DODGERS-BOSOX
GAME TODAY OFF

BROOKLYN, N. Y., April 7.—(INS)—The first game of a three-game series between the Boston Red Sox and the Brooklyn Dodgers was called off today because Ebbets Field was not in condition to play baseball.

In their first test of major league competition yesterday at Wilmington, Del., the Sox defeated the Philadelphia Blue Jays, 8 to 6.

Low Blows Cost Ossie Harris Fight

Pittsburgher Defeated By Izzy Jannazzo; Fourth Straight Loss In Detroit

DETROIT, April 7.—(INS)—Izzy Jannazzo, New York middleweight, today held a unanimous ten-round decision victory over Ossie Harris, following their fight in Olympia last night. It was the fourth straight loss for Harris in Detroit.

Low blows by Ossie last night caused him to lose the 5th and 7th rounds and provided the margin of victory in what otherwise would have been a very close fight.

Mike Della, Los Angeles, scored a technical knockout over Eddie Dowd of Newark in the other 10-rounder. Referee Clarence Rosen stopped the affair in the ninth.

Rosenthal Arrives At Yankees' Camp

ATLANTIC CITY, N. J., April 7.—(INS)—The arrival in camp of Larry Rosenthal, left-handed outfielder, has fortified the New York Yankees somewhat for their meet with the Athletics in an exhibition game today in Atlantic City.

The club meanwhile waits for the draft board physical examination today of Johnny Lindell, Johnny's old head injury may or may not keep him out of the armed forces.

GIANTS-J.C. PLAY AT SECRET BASE

LAKEHURST, N. J., April 7.—(INS)—The New York Giants and the Jersey City Little Giants will share a military secret today when they play at an unidentified army base.

The commanding officer wouldn't let the name out, but the score will be announced anyway. The Giants defeated their farm hands yesterday, 12 to 3.

WALKER INFILDER BEAR MOUNTAIN, N. Y., April 7

—(INS)—Dixie Walker, regarded as a stranger to infield work, will play third base for the Brooklyn Dodgers tomorrow in a game against the Boston Red Sox at Ebbets Field.

Meanwhile Augie Galan, scheduled to play second, is a doubtful starter. He's still worried about that knee he injured in 1940.

Sports Ramblings

Sports alphabet soup:—

Despite the fact that baseball soon takes its place in the sports world (maybe basketball challenges still find their way to the sports desk). The latest summons comes from the Fannins, through their sponsor, Frank Fannin. The Fannins, an unusually clever outfit and boasting of 15 wins against three losses, desire some action against the Castle Five, provided the gate receipts "go to some worthy charitable organization."

Leo Ryglinski, who has made track history throughout the south, probably won't smash cinder path marks for sometime, according to a letter from a one "Chub" Safchik, of Decatur, and who dubs himself as "A Friend." After pointing out that the ex-Ne-Ca-Hi star has completed his pre-flight training at Maxwell Field and soon enters another phase of training, Safchik cites Ryglinski's recent record-breaking mile run of 4:45.1. Leo bagged the half mile event of a recent gravel-grinding classic too. Leo has been jarring records consistently and has been labeled as one of stand-out trackmen in service.

P. H. Bridenbaugh, Ne-Ca-Hi coach, and Assistant Coach William "Bill" Klee are attending the T-formation clinic at Pitt university. . . . Matt Honkenen, the blond mound wizard of not too many years back, has returned to Great Lakes after spending a leave with his wife and children. . . . Seaman Second Class Russ Batley has been transferred from Great Lakes to the San Diego Naval Training hospital and not overseas, as rumored around various avenues.

Fritz Zivic dons his army khaki next Wednesday. . . . Lieut. Charles W. Walters, Temple university's famous grid ace, recently made his greatest run when he escaped from Germany to Allied-occupied territory, according to a communique received by the school. . . . Director J. E. one of the '44 Derby hopes, cost \$2,500 and already has brought a tempting offer of \$75,000. . . . Thought you might like to know that no horse breaking from the No. 9 post ever has won the Kentucky Derby.

The Pittsburgh Pirates recently received a long-distance season ticket order from somewhere in South America. The sender, a pharmacist's mate, stresses the fact that he doesn't know when he'll call around for the ticket. That assures the Bucs of at least one fan. . . . Willie Pep, New York's feather king and who recently was discharged from the navy, resumed his mitt career by handily whipping Leo Francis, of Panama, in Hartford.

Pete Suder, Of A's, Inducted Thursday

NEW CUMBERLAND, Pa., April 7.—The induction of Pete Suder, 27, Philadelphia Athletics infielder, was disclosed today at the New Cumberland army reception center.

He was sent to New Cumberland on March 30 and is now a member of company "C." He is married, has two children and is a native of Alliquippa.

BOSOX VANQUISH PHILLIES, 8 TO 6

WILMINGTON, Del., April 7.—(INS)—The Phillies concentrated today on bringing the runner home as they sought to shake off a two-game losing streak in a game with the Baltimore Orioles.

The Blue Jays have out-hit previous opponents but still fell short on the scoring. Yesterday they poked out two homers and a total of 11 hits but lost 8-6 to the Boston Red Sox who included a pair of round trip blows in eight safeties.

Is Jacobs New Pilot Of Louis? Could Be

Max Waxman's Personal Appearance Booking Of Champion May Be Cue

By DAVID J. WALSH
(International News Service Sports Writer)

CHICAGO, April 7.—Is Mike Jacobs now the manager of Joe Louis, in fact as well as in tacit understanding? There's no impelling need, incidentally, to work up so deep a sense of personal outrage over this. After all, we're just asking. And wondering a little, too.

It's acknowledged, for instance, that upon the recent expiration of Louis' contract with his managers, Julian Black and John Roxborough, the heavyweight champion mumbled a few monosyllables which were construed as meaning the old arrangement would go on.

But when Louis made a recent appearance as a referee in a nearby city—for, we believe, 40 per cent of the net—he was booked in there by Max Waxman, the 10 per cent exploiter of the Jack Dempsey personal-appearance dodge. Louis, furthermore, was accompanied on the exhibition by Lew Diamond, alias the Honest Breakneck.

None of this sounds particularly like Roxborough and Black.

Old Fight Head
Waxman is one of those citizens who used to be a steady state for fighters like Joe Louis. Since Dempsey, but presently it's simpler—and warmer—just to let it Dempsey's pub and wait for the sucker list to provide its inevitable payoff. The latter's routing was inevitable. First he wanted to limit Dempsey, then after striking up a lasting friendship, he was all for Dempsey coming to Wappinger's Falls as guest star and referee.

Dempsey would be delighted. Nothing would please him more. At least, that's the way it always seemed.

Waxman, though, always turned up in time to save Jack from his boyish irresponsibility, which was certainly fortunate because Jack's irresponsibility thereafter never again became so marked that he forgot to accept 90 per cent of the sum agreed upon, with Waxman getting the other 10.

Waxman, they say, is booking all the Louis personal appearances, which would mean he's been hired for his contacts along the Dempsey route, just as sure as the same reason Billy McCarney was sent out by the late Rickard with Firpo on the celebrated sucker tour before the Dempsey fight in 1923.

BRAVES TO FACE

NEWARK SATURDAY
NEW YORK, April 7.—(INS)—The Boston Braves were resting up in New York today for their game tomorrow with the Bears at Newark, N. J.

Yesterday, they finished their training at Choate school, Wallingford, Conn., with the rookies blanking the school team, 3-0, in a six-inning affair. It wound up two weeks of conditioning for the Tribe.

HERE AND THERE IN SPORTS LAND

In another column on the Sports page today fishermen will find a list of trout streams, whether or not the trout stocked are brown or rainbow and how the stocked portions of the streams may be reached. The column should be clipped for future reference. It was provided by Clinton B. White, fish protector of Lawrence and Mercer counties. According to White, all of the stocked fish average at least nine inches in length and have been larger than any previous year. He reports sucker fishermen have given co-operation and there has been little sucker fishing. One of the rules fishermen should remember is that, fishing will be closed between 5 p. m. April 14 and 5 a. m. April 15.

Jeff Heath, Cleveland outfielder, now employed in a Seattle shipyard, has not yet accepted terms for 1944. Negotiations are under way for a bout between Billy Miller and Beau Jack for a Forbes Field, Pittsburgh, bout this summer. Although Miller received the decision over Lulu Constantino many believed the award should have gone the other way.

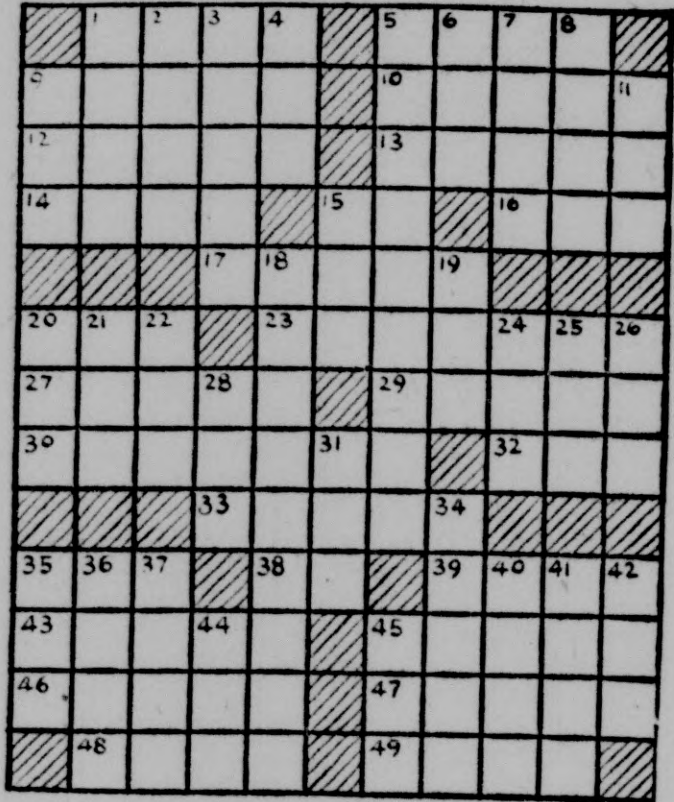

Children up to the age of 16 need no fishing license and persons in military service receive free licenses. Kiki Cuyler, former Pirate and Cub, is managing the Southern Association Atlanta Crackers this season. Speaking of base stealers he accredited Max Carey, former Pirate, as the best thief, having stolen 50 bases in 52 attempts in one season.

Francis X. Reagan, Penn. great backfield star and Interstate league baseball player, is a marine captain.

Sports Cut and Dried

Several hours after decorating a 1944 Pittsburgh Pirate contract, Vince DiMaggio, one of the few remaining major league holdouts, made his debut by spanking a pair of singles as Cleveland defeated the Buccos, 6-3, at Muncie, Ind., yesterday.

Money-loaded New Yorkers, hungry for racing, will have their appetites appeased tomorrow as Empire State's racing season opens with a 25-day session at Jamaica, with transportation an easier problem than last year, the track should do better than in 1943 when \$284,635,711 were shoved across the pari mutuels.

Lou Nova, who is essaying another comeback, battles Paul Hartnek, in Omaha, April 17, in a 10-rounder. Gil Dodds was on up with an ailing ankle and will not vie in the coming Penn relay carnival in Philadelphia on April 29, it was announced today in Boston. The divi-

ty student believes he sustained the injury in Cleveland recently. Henry Armstrong, who held three titles at one time during one of the most brilliant boxing careers in the history of the game, has passed his pre-injection physical and is due to enter the army in 21 days, his manager, George Moore, announced today from Los Angeles.

Baseball fans weren't rudely shocked this morning to learn that bookmakers have installed the St. Louis Cardinals as odds-on favorites to win the National League pennant again this season. While the Red Birds have lost many stars, there the Cards still have Mort and Walker Cooper, Harry Brecheen, Max Lanier, Johnny Hopp, Marty Marion, Stan Musial, Whitey Kurowski and Danny Litwhiler. District coaches are in Pittsburgh attending the T-formation football camp sponsored by Pitt. Suffolk Downs has been granted racing dates from May 15 to July 22, the state commission announced from its Boston offices today.

CINCY LOSES, 4 TO 3; SIGNS TWO PLAYERS

BLOOMINGTON, Ind., April 7.—(INS)—Manager Bill McKee of the Cincinnati Reds announced today the signing of Outfielder Mike Kosman, former University of Indiana star, and Pitcher Richard Craft of South Bend, Ind.

NATS NIP ORIOLES, 1-0, BEFORE 6,000

COLLEGE PARK, Md., April 7.—(INS)—The Washington Senators chalked up another spring training exhibition game today, a 1-0 victory over the Baltimore Orioles. The game was played before 6,000 soldiers at Fort Meade, Md. Washington scored the game's only run in the sixth inning.

ATLANTIC CITY, N. J., April 7.—(INS)—The Athletics hoped today to make it two straight over the New York Yankees in their current exhibition series with the world champions. Connie Mack said he was impressed with his team's showing of hitting power and smooth infield work in six straight exhibition contests it has won.

Bruce Fisher New Bedford High Coach

JOHNSTOWN, Pa., April 7.—(INS)—Bruce M. Fisher, Ferndale borough high school's first and only athletic coach, today has resigned to become athletic director and head coach at Bedford high school. He came to Ferndale in 1925 and boosted the Yellow Jackets into a place of prominence in western Pennsylvania. The football team won the Cambria county conference crown for four consecutive years beginning in 1932, and advanced from class B to class A in 1937.

WHITE SOX TRUMP CROSSTOWN FOE, 4-1

FRENCH LICK, Ind., April 7.—(INS)—The Chicago Cubs will try to even matters with the White Sox when they stage the second act of their eight-game spring series at George Field, near Lawrenceville, Ill., this afternoon. The Sox beat the Cubs, 4 to 1, yesterday.

Paul Derringer, whose injured right ankle has quit acting up, was expected to see action in the Cub box in today's game.

Huge Increase In Rabid Dogs In This District

PITTSBURGH, April 7.—(INS)—With an increase of 400 per cent in the number of rabid dogs reported in January and February, compared with the same period in 1943, Pittsburgh has joined other western Pennsylvania communities in a determined crusade to eliminate the menace.

Harold F. Burnworth, chairman of Pittsburgh's emergency dog control committee, warned that the danger is intensified because April is the most contagious month of the year, considering the number of mad dogs picked up on the streets.

The epidemic is reported widespread in western Pennsylvania, with dog quarantines being enforced in Erie, Greensburg, Jeannette, Penn. borough, Penn. township, New Kensington, Arnold, Vandergrift, East Vandergrift, Belle Vernon, Export borough, Franklin township, North Versailles, Ohio township, Blawnox, McKeesport, Clairton and Dravosburg.

In the six last named communities dogs running loose on the streets are being shot on sight, regardless of whether they are vaccinated or licensed.

Since Jan. 1 a Glassport boy and a woman in New Kensington are reported to have died from infections resulting from the bites of rabid dogs.

Britain Also Has Pay As You Earn

LONDON, April 7.—(INS)—The British today learned another of war's trials when the new British pay as you earn tax plan became effective.

Tax offices have been besieged by bewildered citizens seeking enlightenment.

A poll of industrial firms revealed that the plan has met a mixed reception, but one employer remarked that the income tax never has been particularly popular.

IN U. S. ARMED SERVICE

(War Censorship Regulations Limit Information Allowed in This Column)

Sgt. Robert Gallagher, recently assigned to a field hospital in the Hawaiian Islands, reports that he had a nice visit with his brother, Eddie, who is stationed in the Pacific area with the U. S. Navy, and whose base is only twelve miles away. They both received an additional pleasant surprise when their brother, Vincent, machinist mate on an airplane carrier arrived in the Islands and joined them. Vincent has been serving in the Atlantic area and had made a number of trips to North Ireland. A fourth brother in the service is Lt. John Gallagher. They are the sons of Mr. and Mrs. J. V. Gallagher, of 624 Taylor street.

News of the first meeting in three years of two brothers from here is contained in a V-mail letter received by Mrs. Emery McFarland of 1213 South Mill street from her son, Jack Emery, M.P. He and his brother, Capt. Oren McFarland had dinner together in Italy recently, the first time they had seen each other since 1941.

Alfred Apicelli, 716 Croton avenue, left for the Navy on December 4, 1943. He received a diploma and graduated a pharmacist's mate third class in the United States Navy on March 31 in the Hospital Corps school. He has been awarded a certificate of graduation by the bureau of medicine and surgery, Navy department, Washington, D. C. He graduated as an honor student.

Says She's Too Old For Public Office

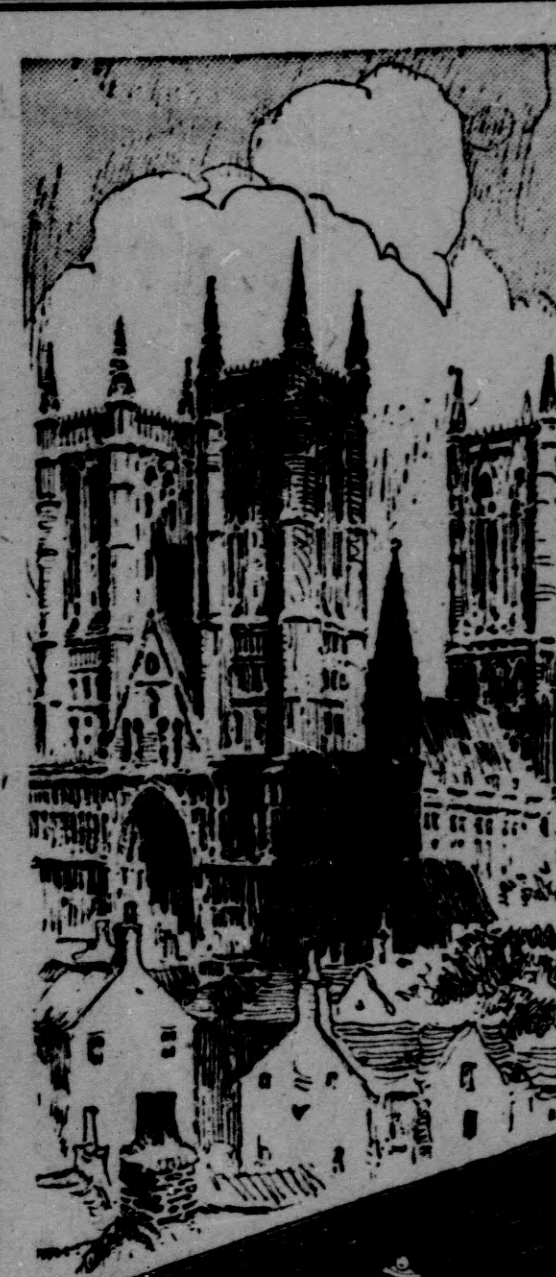

WASHINGTON, April 7.—(INS)—With a franchise not admitted by many of her sex, Mrs. Franklin D. Roosevelt said Thursday that she was "too old" to take any public office.

The subject came up during her news conference, when she was asked about the place of women at the peace conference.

Mrs. Roosevelt said that she would be 60 years old at her next birthday and that "nothing on God's green earth would induce me to hold any public office."

"This is a young persons world and there should be young women at the peace table," she emphasized.

There are close to 50,000 persons in New York City that subsist entirely on the profits of crooked gambling.

Assails O.P.A. As Being Political And Inexperienced

PHILADELPHIA, April 7.—(INS)—

The office of price administration today was branded "inexperienced and political," by George A. Casey, chairman of the board of the National Independent Meat Packers Association.

Casey charged that the present rationing system is the root of all black market evils. He explained that if rationing points for meat

were lowered, the black market would collapse.

"Everybody would have everything—steak every day if they wanted it," he said, because "there is enough for all."

In an address to the Philadelphia Business club he urged members to "complain publicly about unfair distribution of meat and butter and to watch out for everyone taking advantage of you."

"There's enough butter everywhere so why shouldn't you all have it?" he declared.

Argentina has banned the description of "sidra champagne" on labels and advertisements connected with cider.

State C. Of C. Renames Bulette

HARRISBURG, April 7.—(INS)—

William C. Bulette, of York, headed the Pennsylvania State Chamber of Commerce today for another year following his re-election last night at its 27th annual meeting in Harrisburg.

H. W. Prentiss, Jr., of Lancaster, president of the Armstrong Cork Co. and former president of the National Association of Manufacturers, was elected first vice-president, while Edward Hopkinson, Jr.,

of Philadelphia, was named second vice-president.

Re-elected to office for another term were Harry C. Graham, of Pittsburgh, third vice-president, and Otto G. Hitchcock, of Erie, fourth vice-president. William E. Earnest, of Harrisburg, was named treasurer.
